# Branding and website for the digital systems developer “Poccom”

The developers at Poccom create software that helps clients manage online stores and warehouses, optimize logistics, and integrate payment systems.

We designed the branding and website. The concept revolves around the circle shape. The circles evolve, becoming more intricate and forming various compositions. This approach was inspired by Poccom's flexibility in addressing clients' business needs.

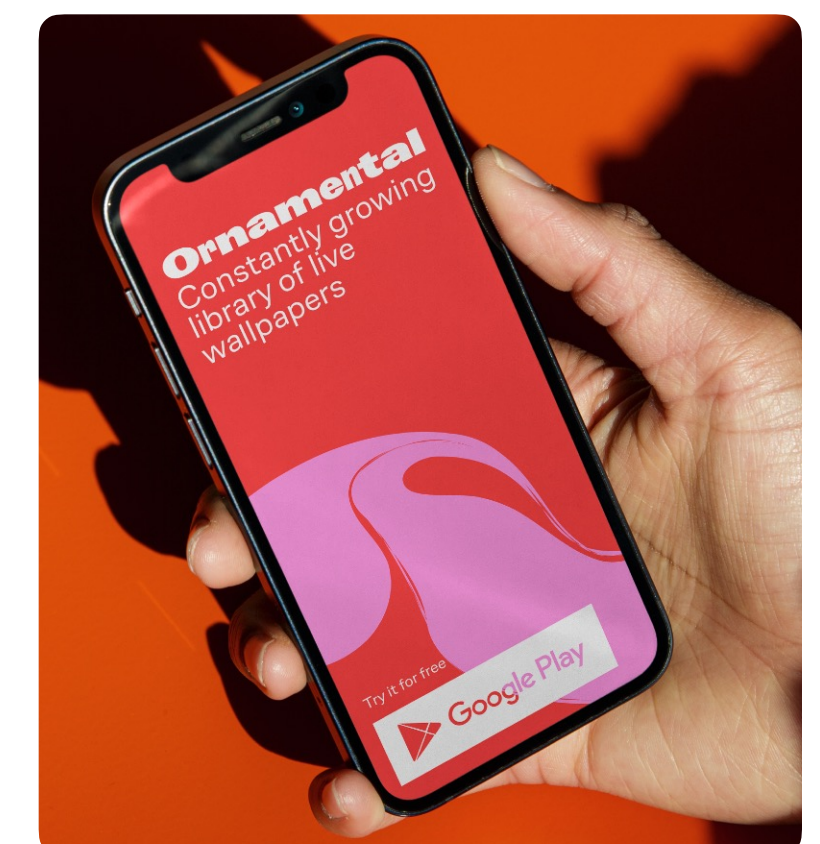

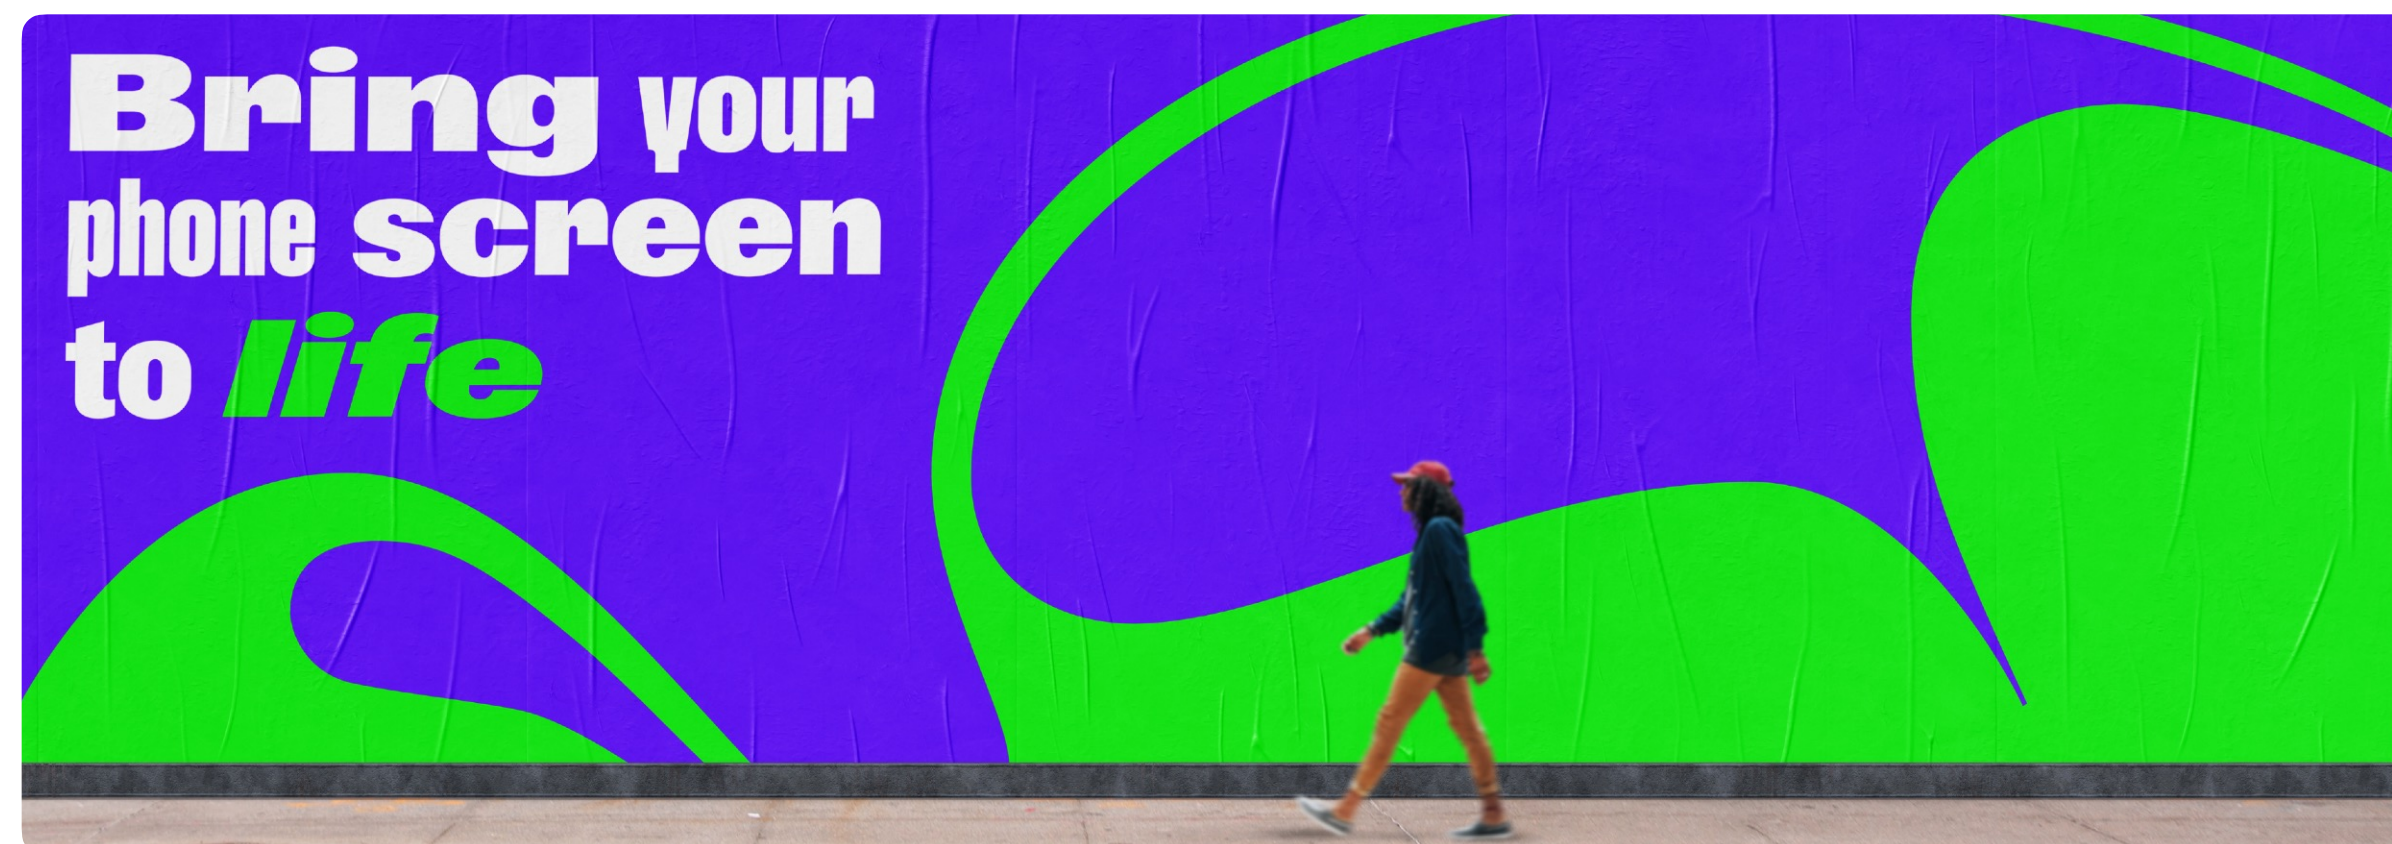

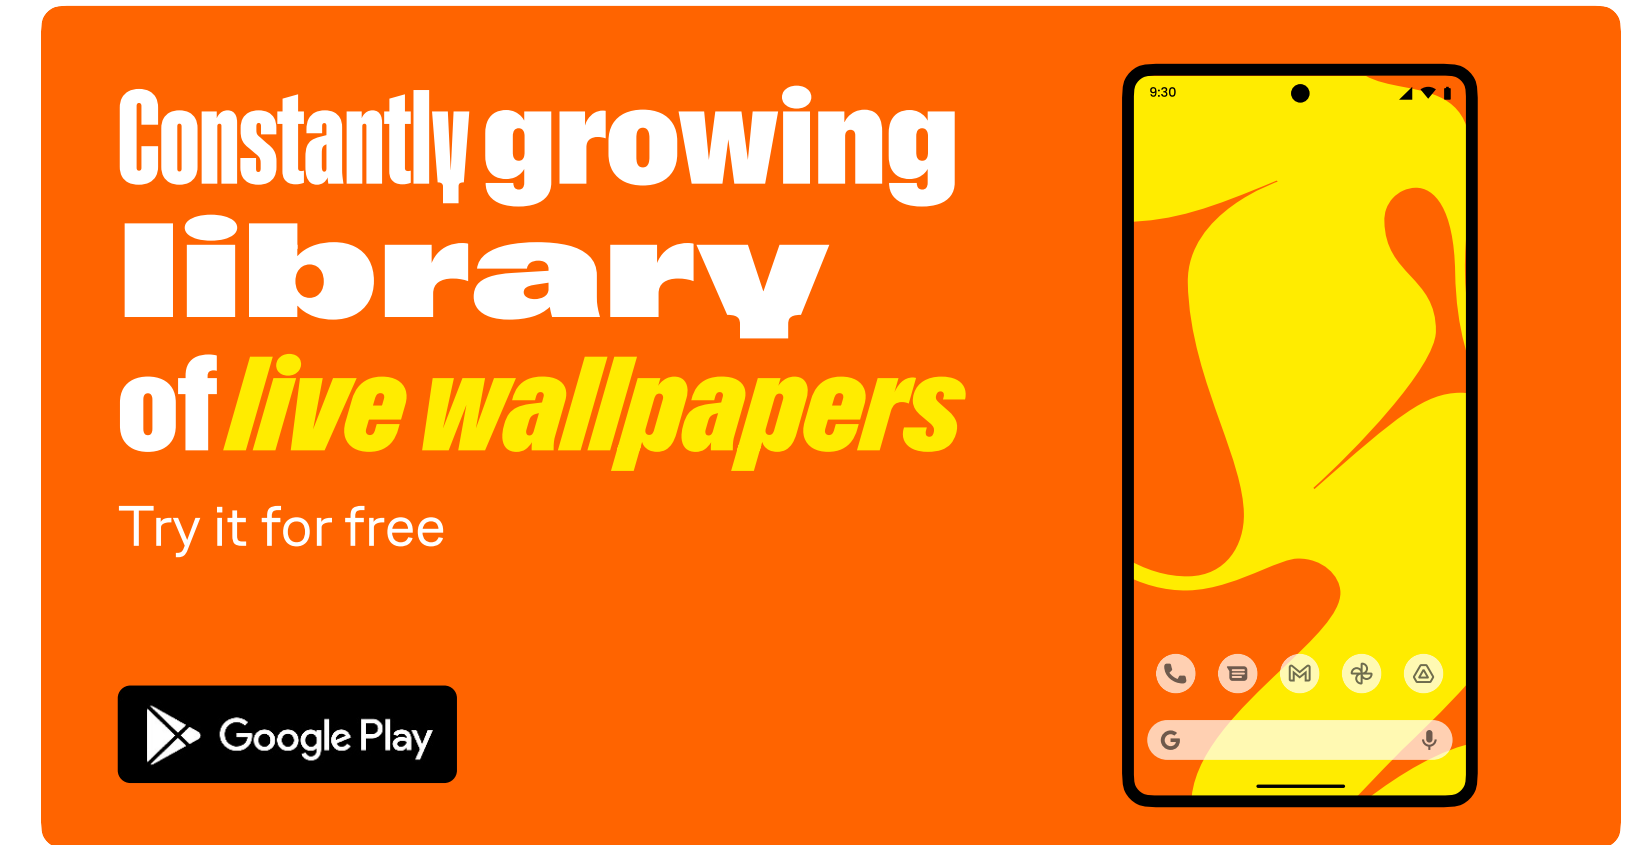

[More in portfolio](#)

# “Ornamental” app identity

Ornamental is our project featuring animated wallpapers for Android phones.

We've developed a vibrant and dynamic visual identity, with variations in the logo and typography. The metaphor for the identity is paint streaks.

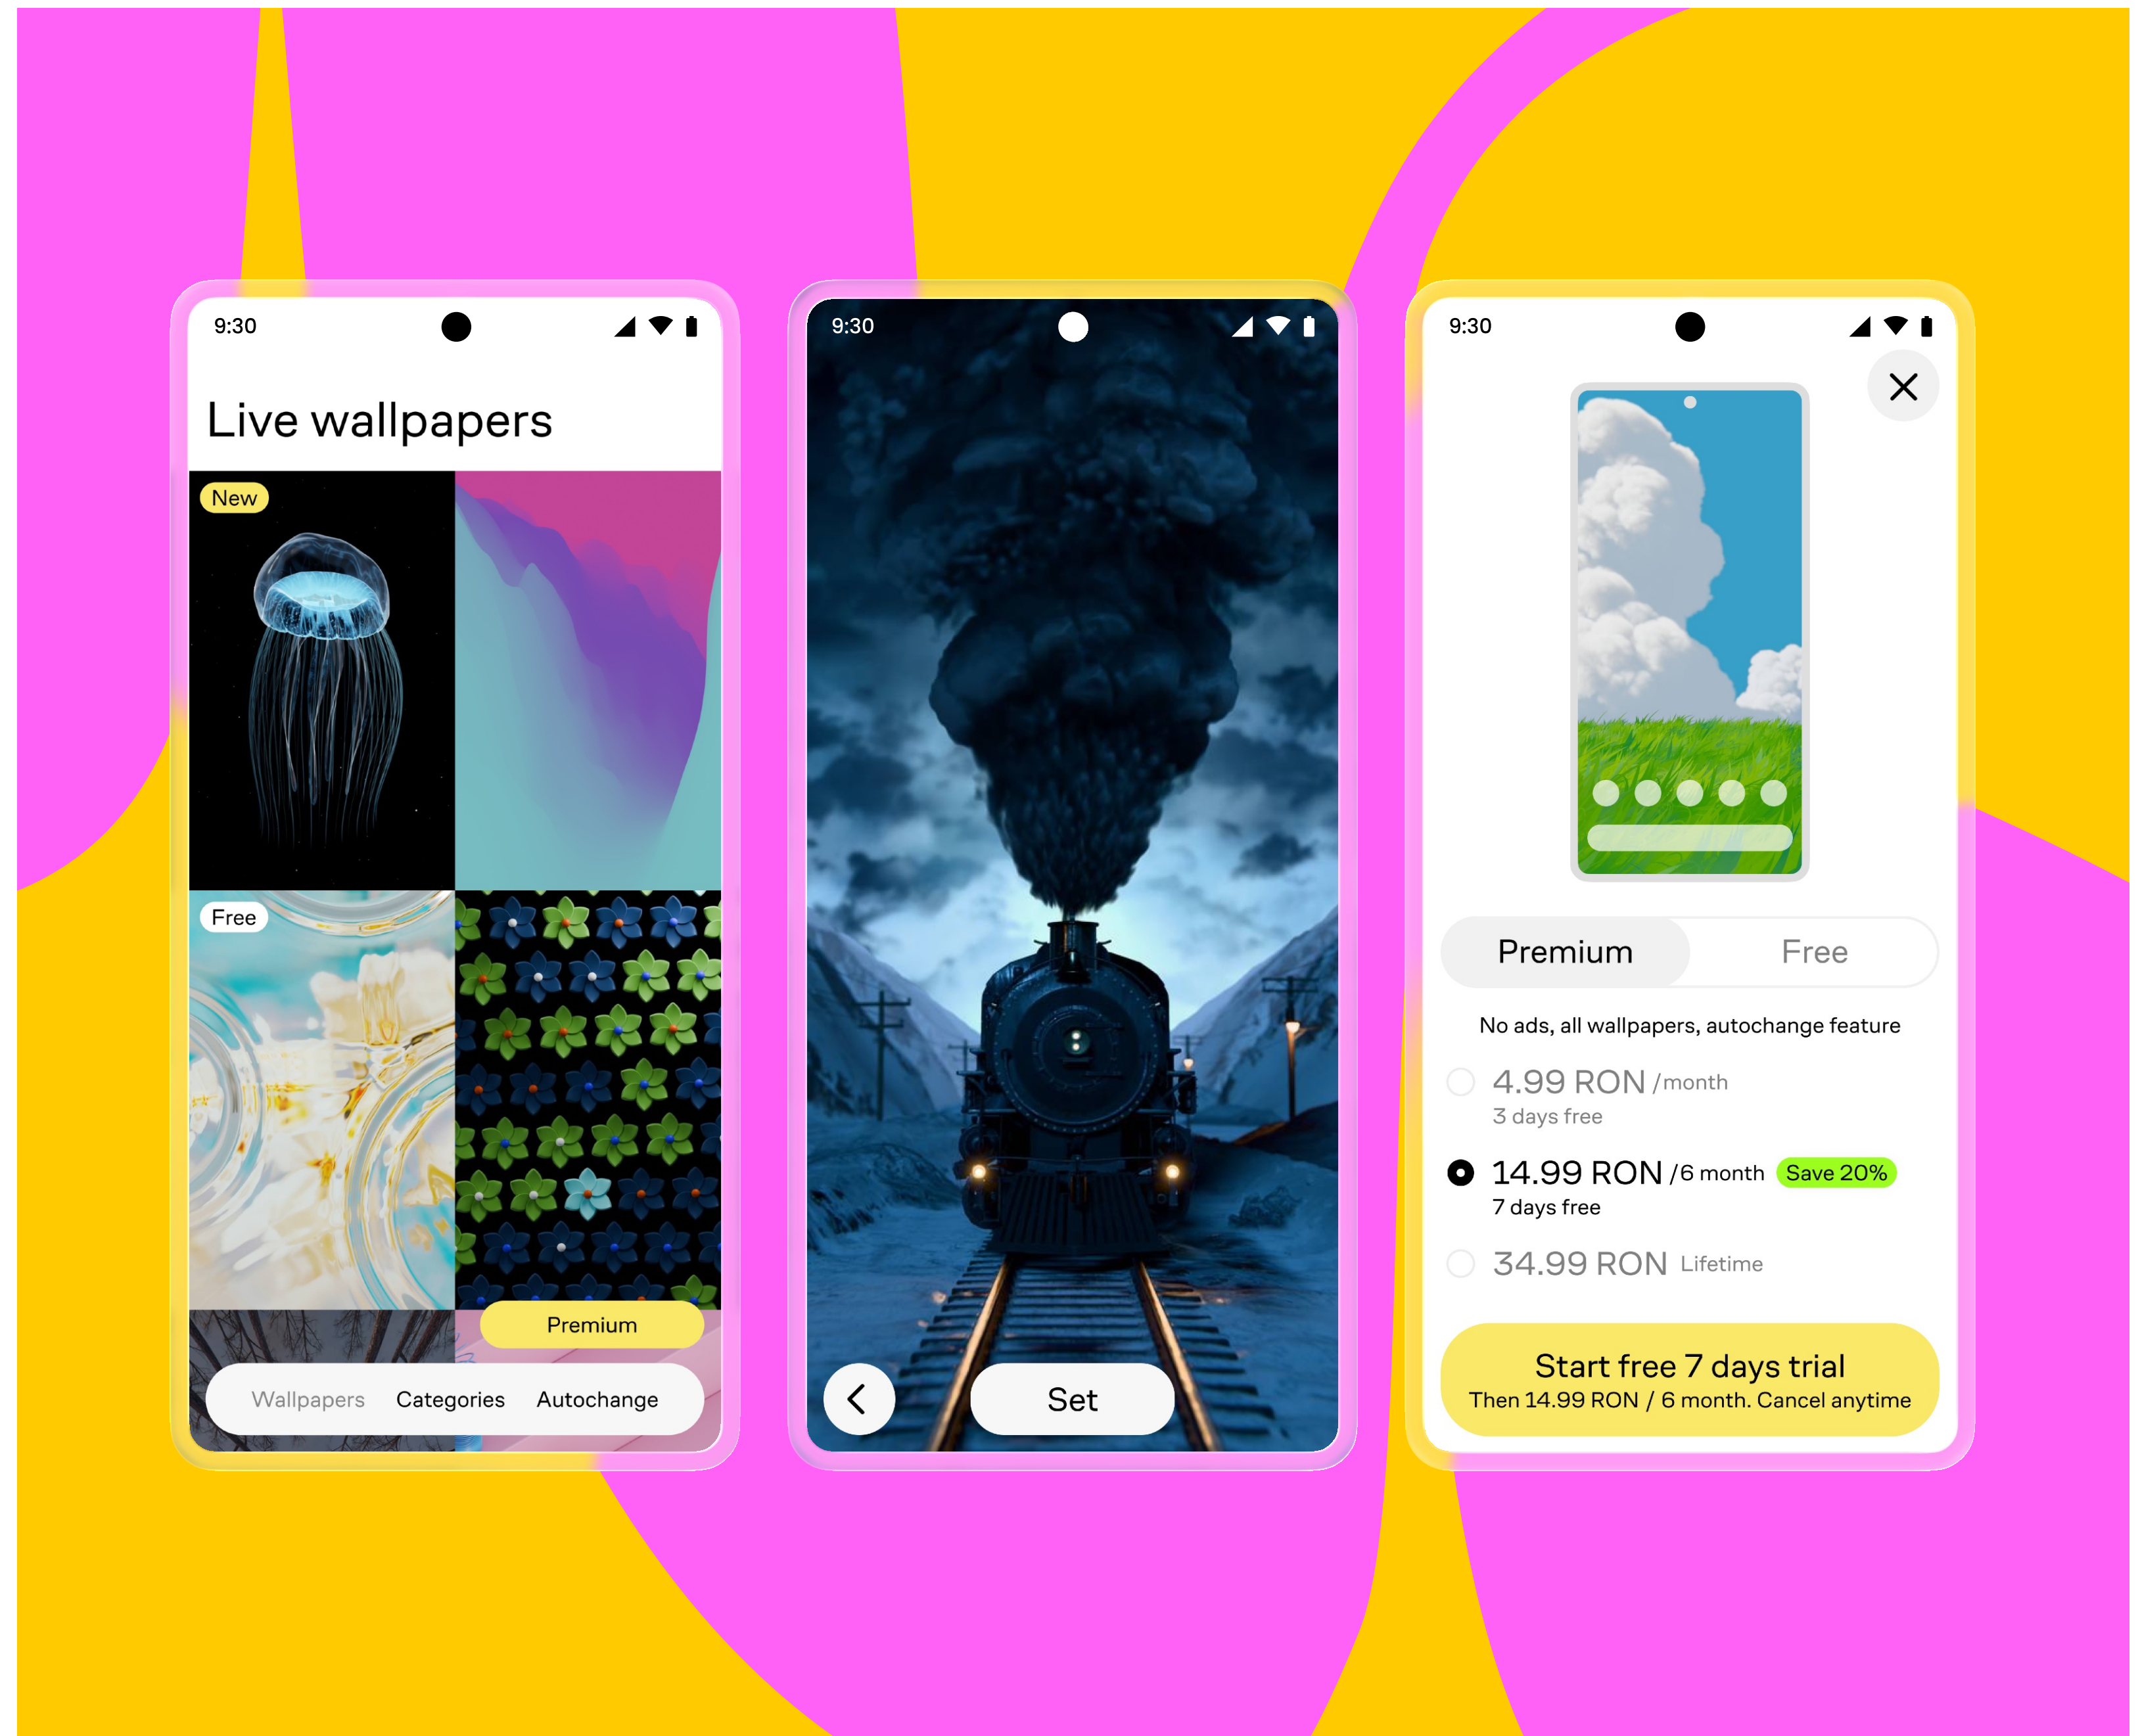

[More in portfolio](#)

# “Ornamental” app interface

Ornamental is our project featuring animated wallpapers for Android phones.

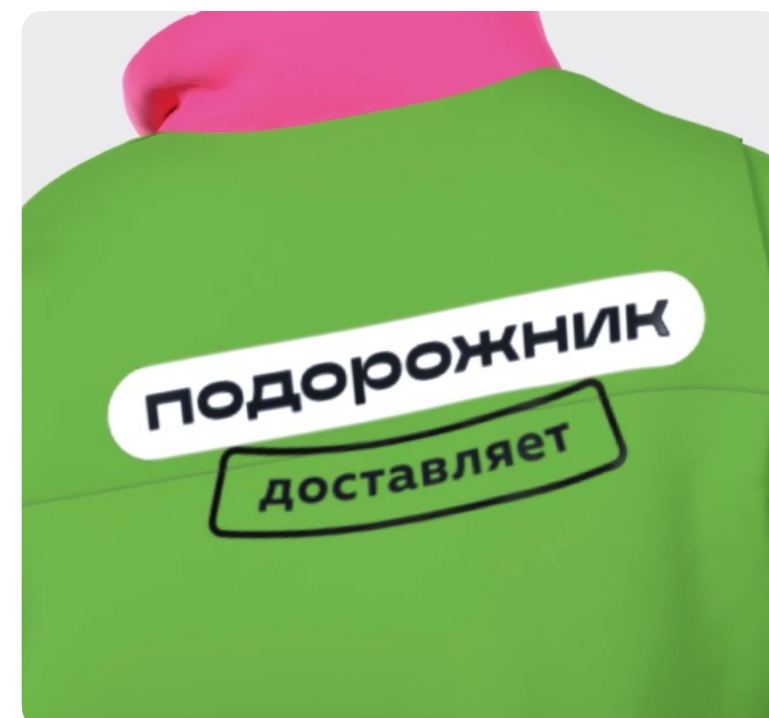

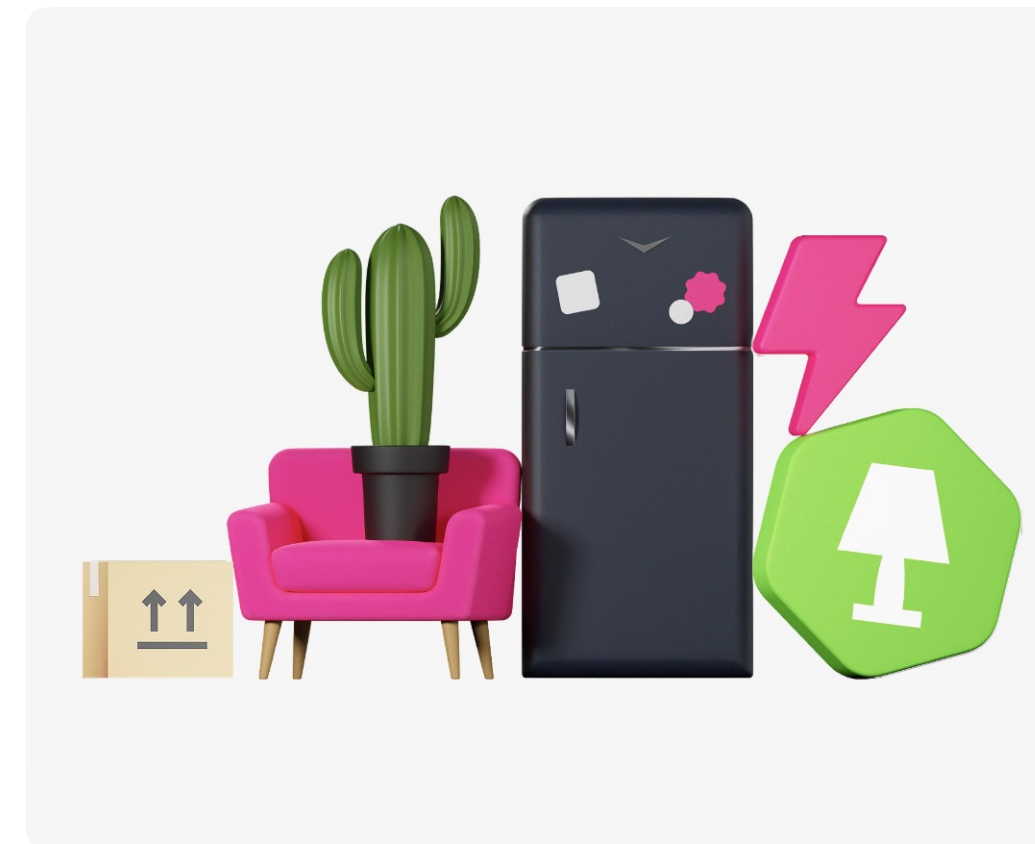

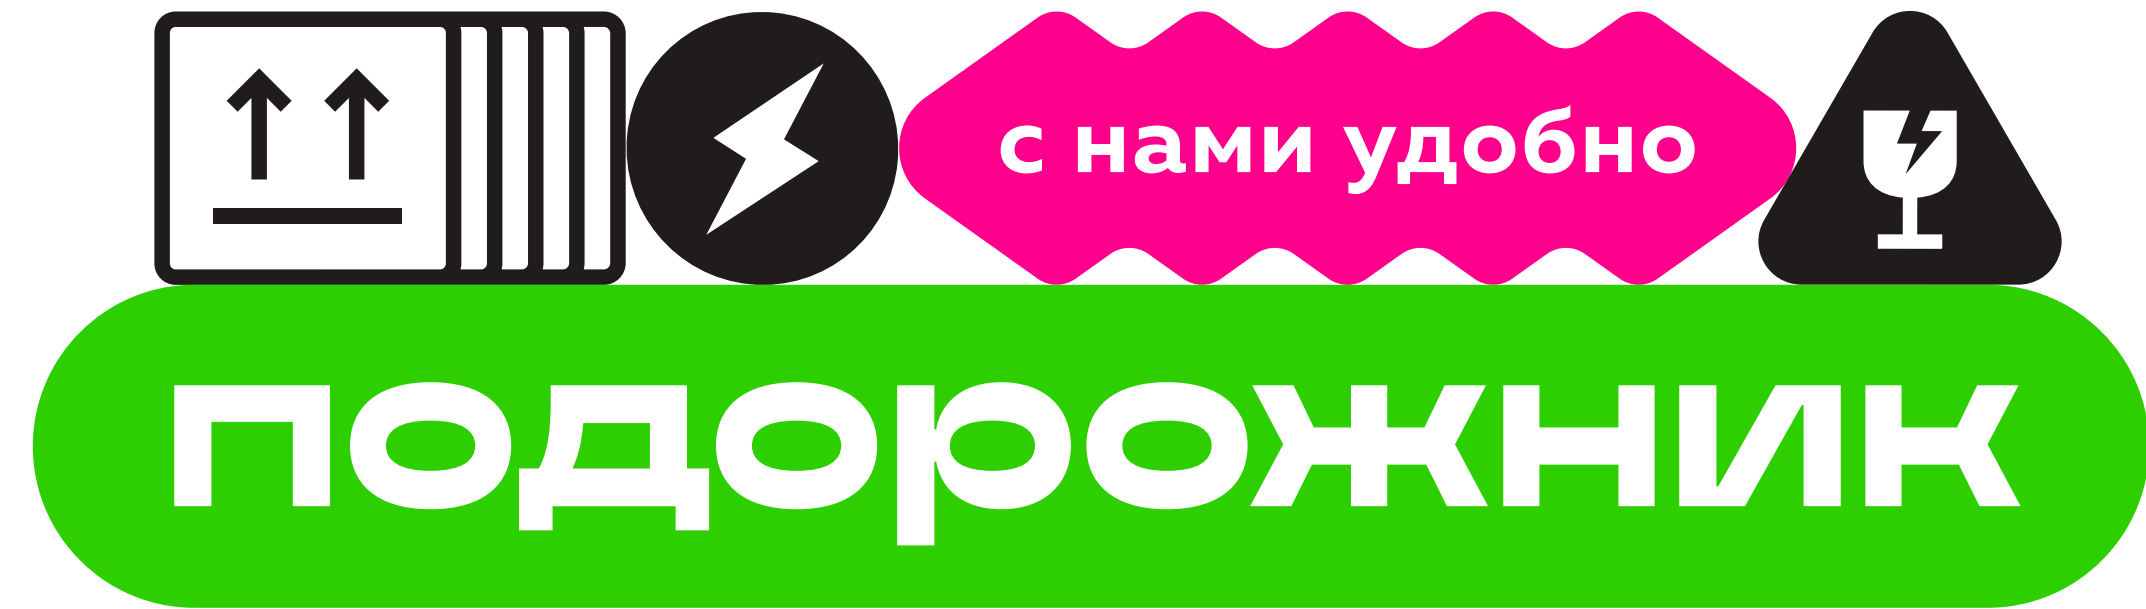

Through the app, users can select and set wallpapers, as well as purchase a subscription or rent wallpapers by watching ads.

# “Podorozhnik” cargo taxi brand identity

The transportation company Podorozhnik helps with apartment, country house, and office moves, transports cargo, and delivers goods from online stores.

We have completely revamped the brand identity, designed the vehicle fleet, employee uniforms, and merchandise.

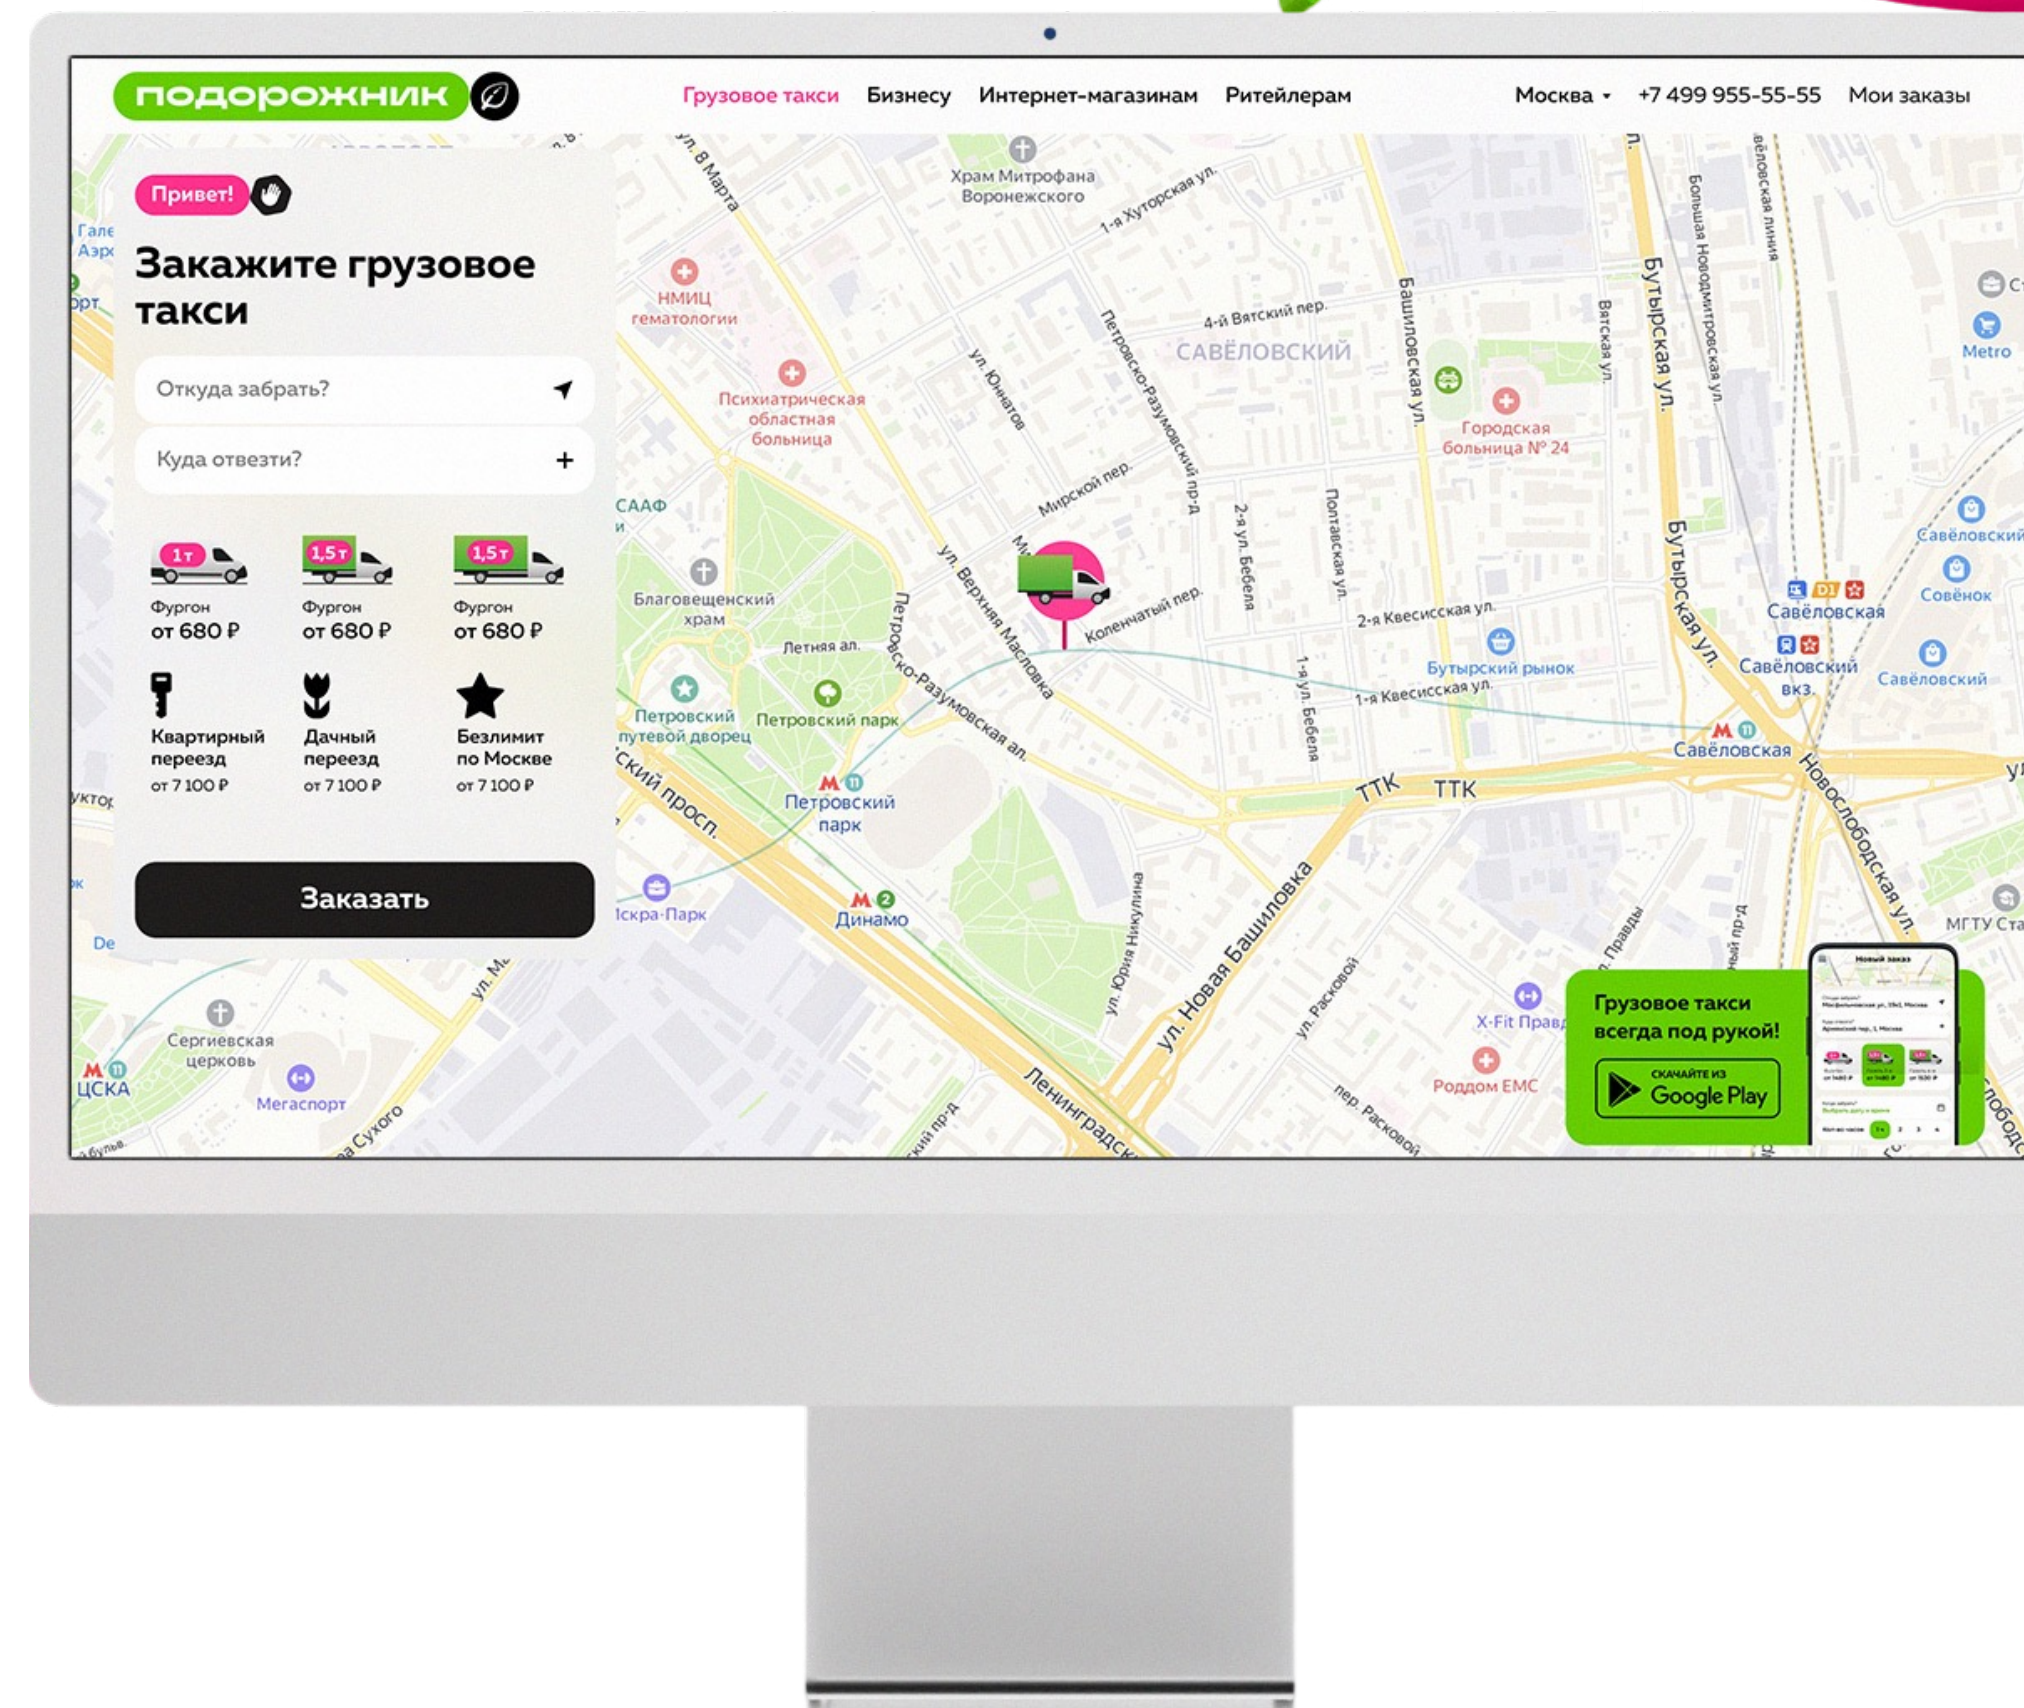

[More in portfolio](#)

# “Podorozhnik” cargo taxi site

The transportation company Podorozhnik helps with apartment, country house, and office moves, transports cargo, and delivers goods from online stores.

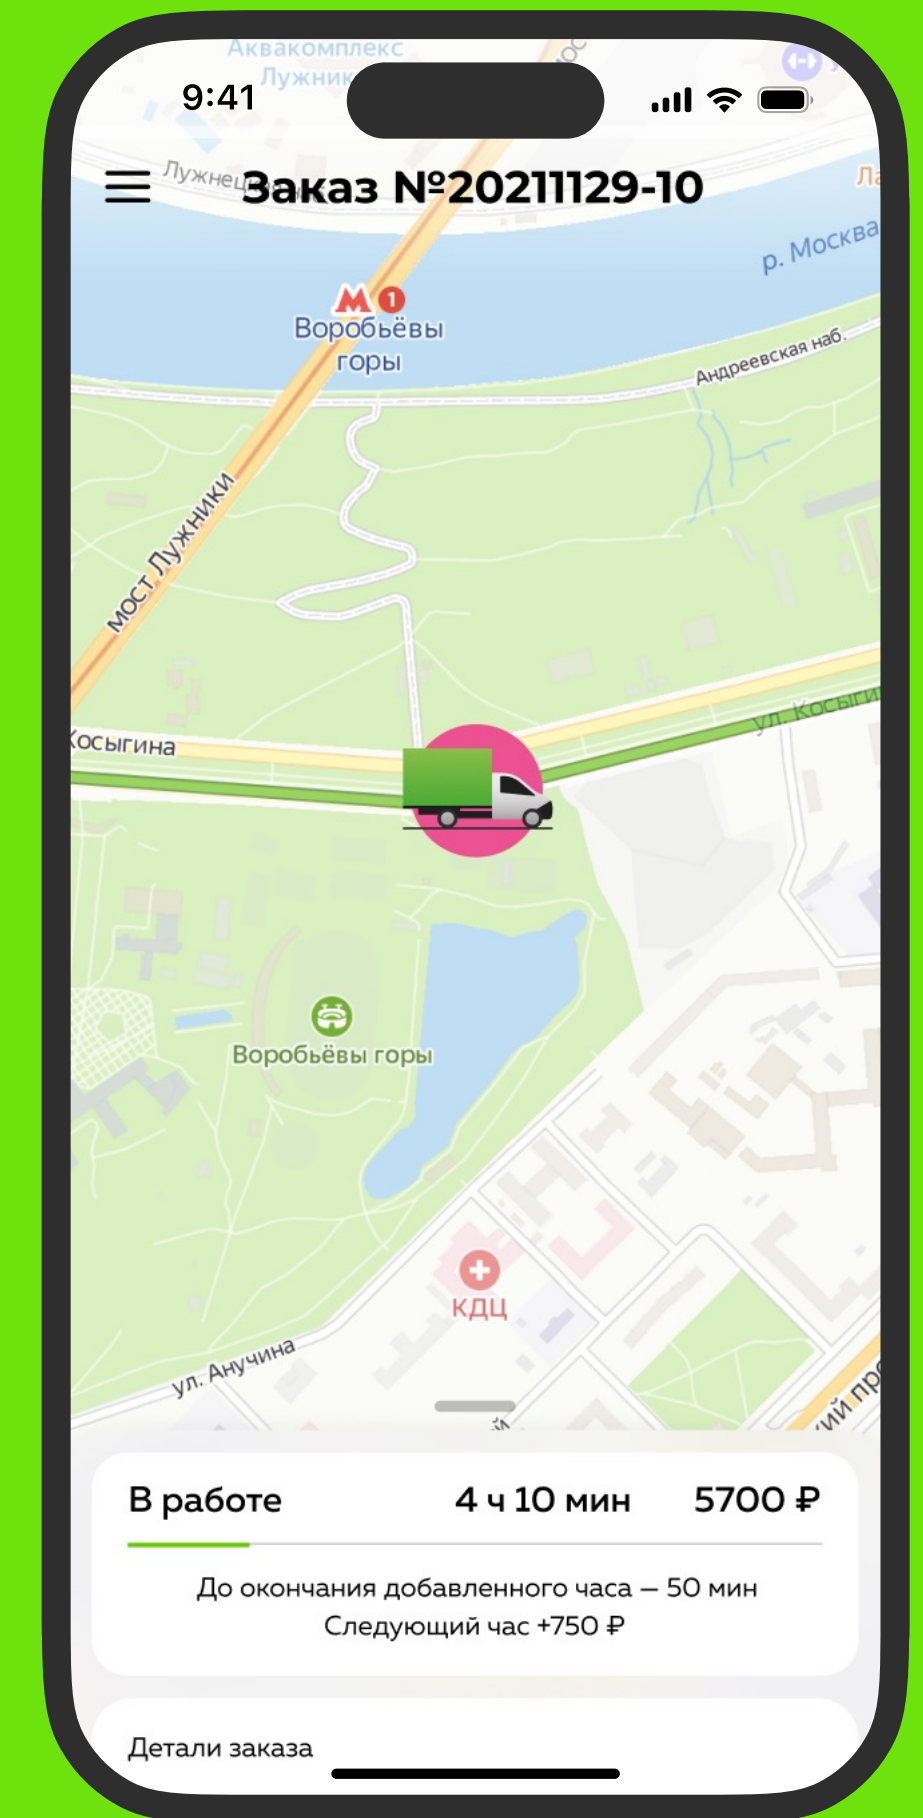

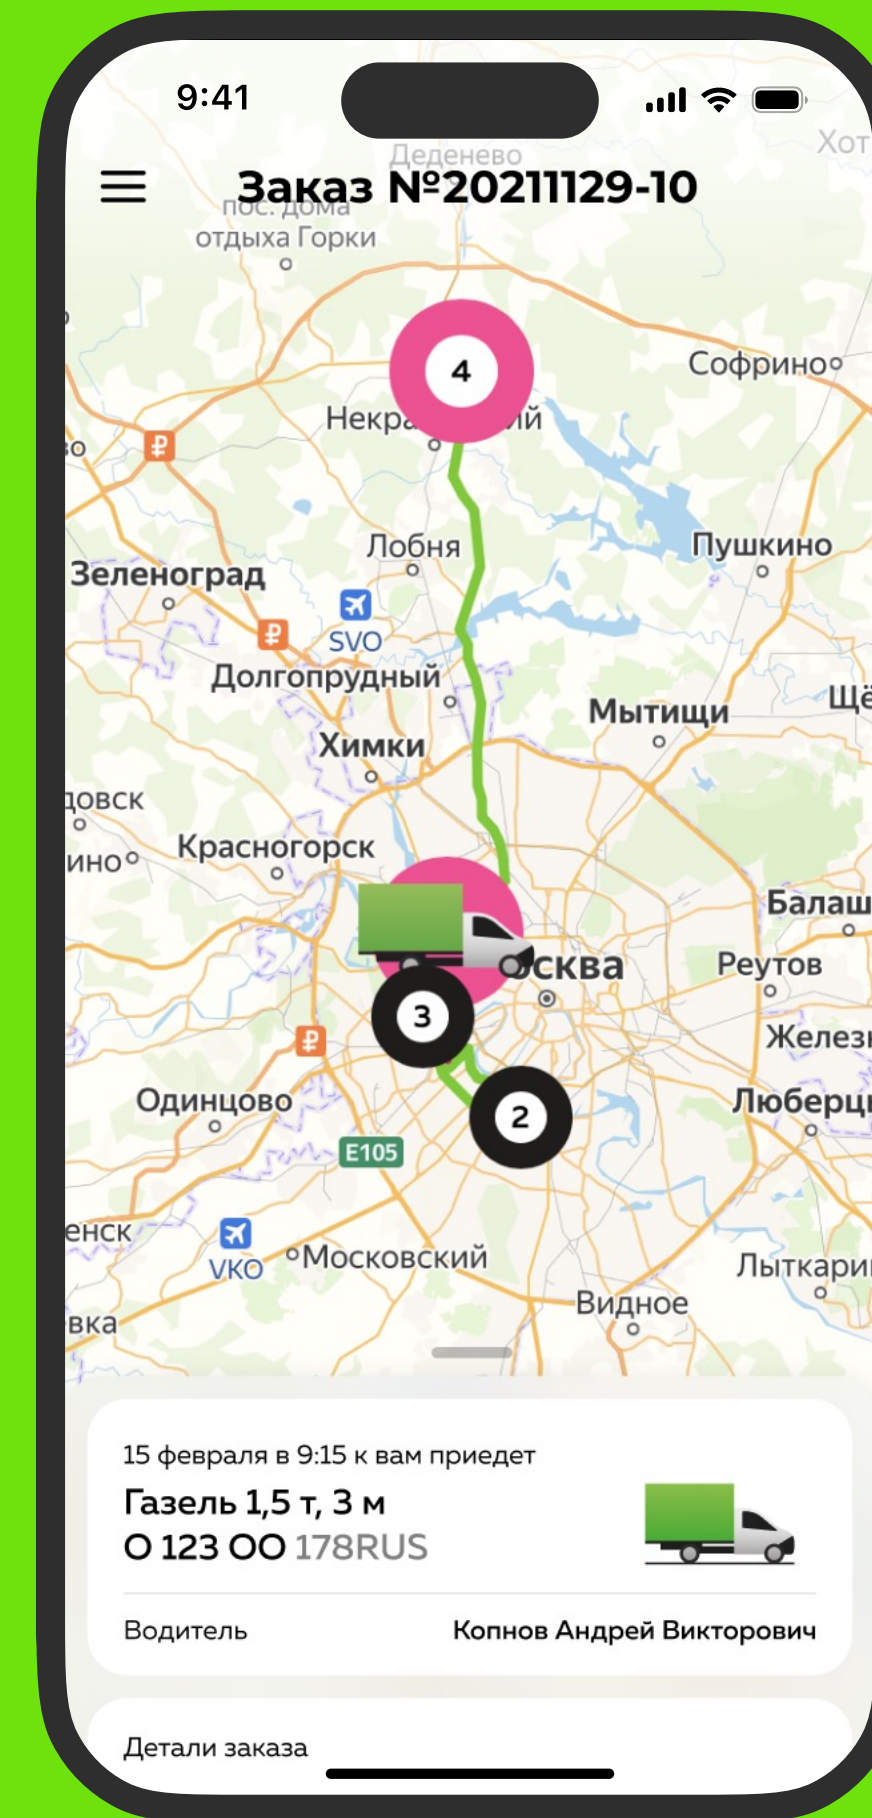

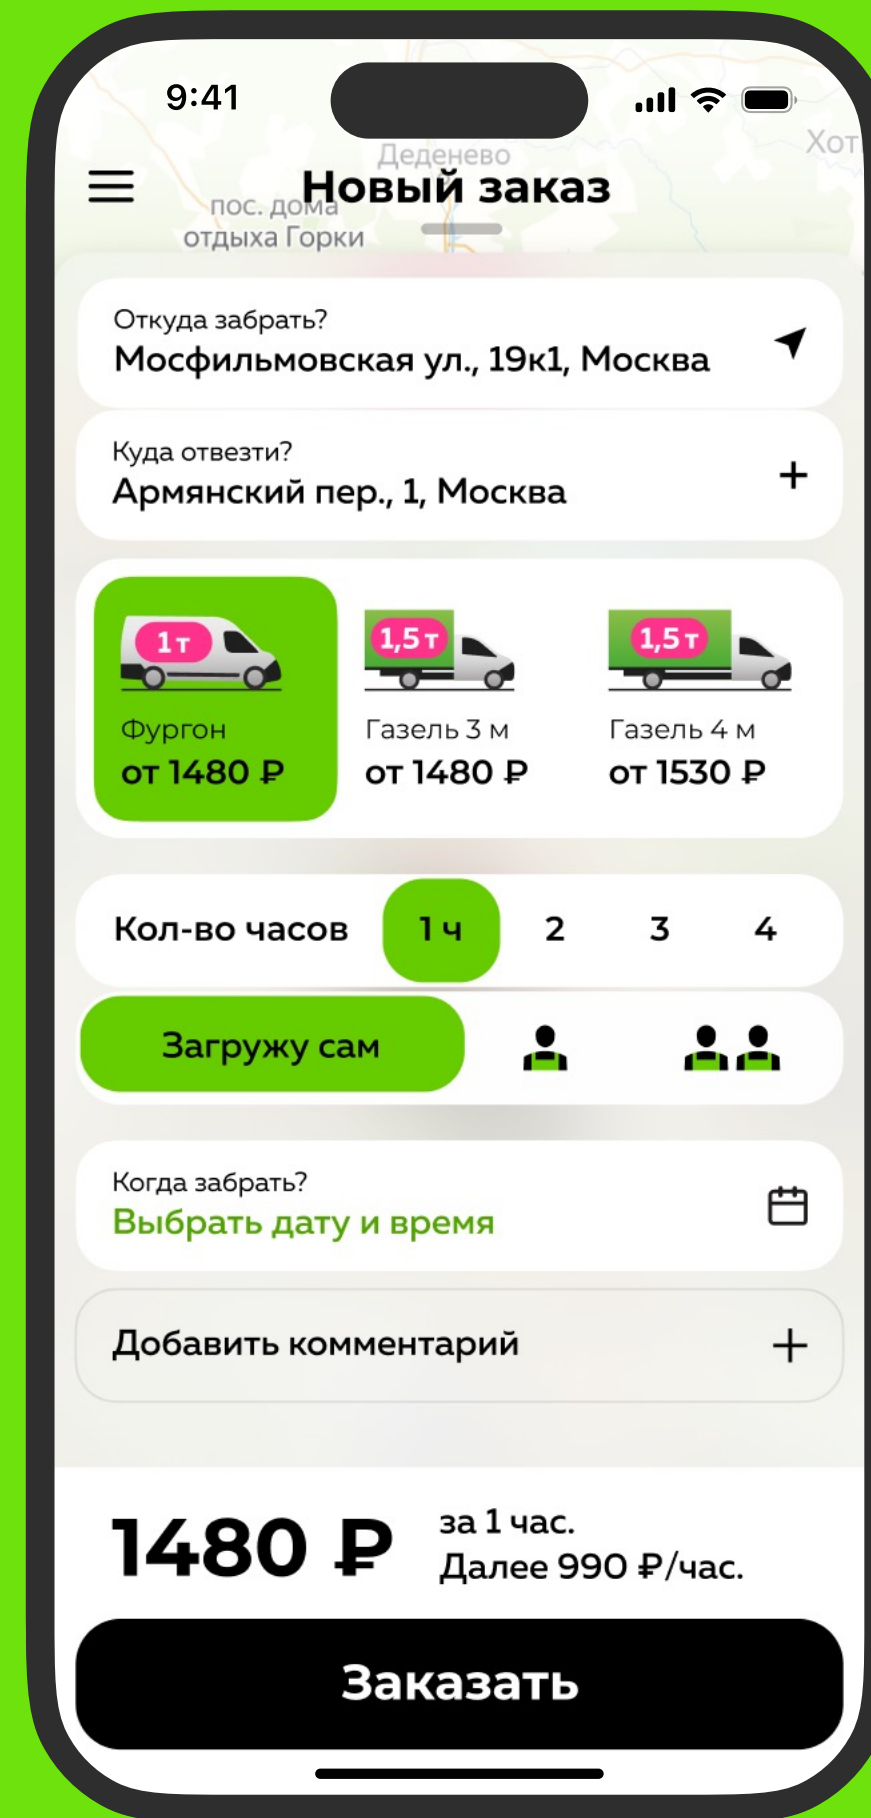

We have developed a new website to get to know the company and order cargo taxi services.

# “Podorozhnik” cargo taxi booking app

The transportation company Podorozhnik helps with apartment, country house, and office moves, transports cargo, and delivers goods from online stores.

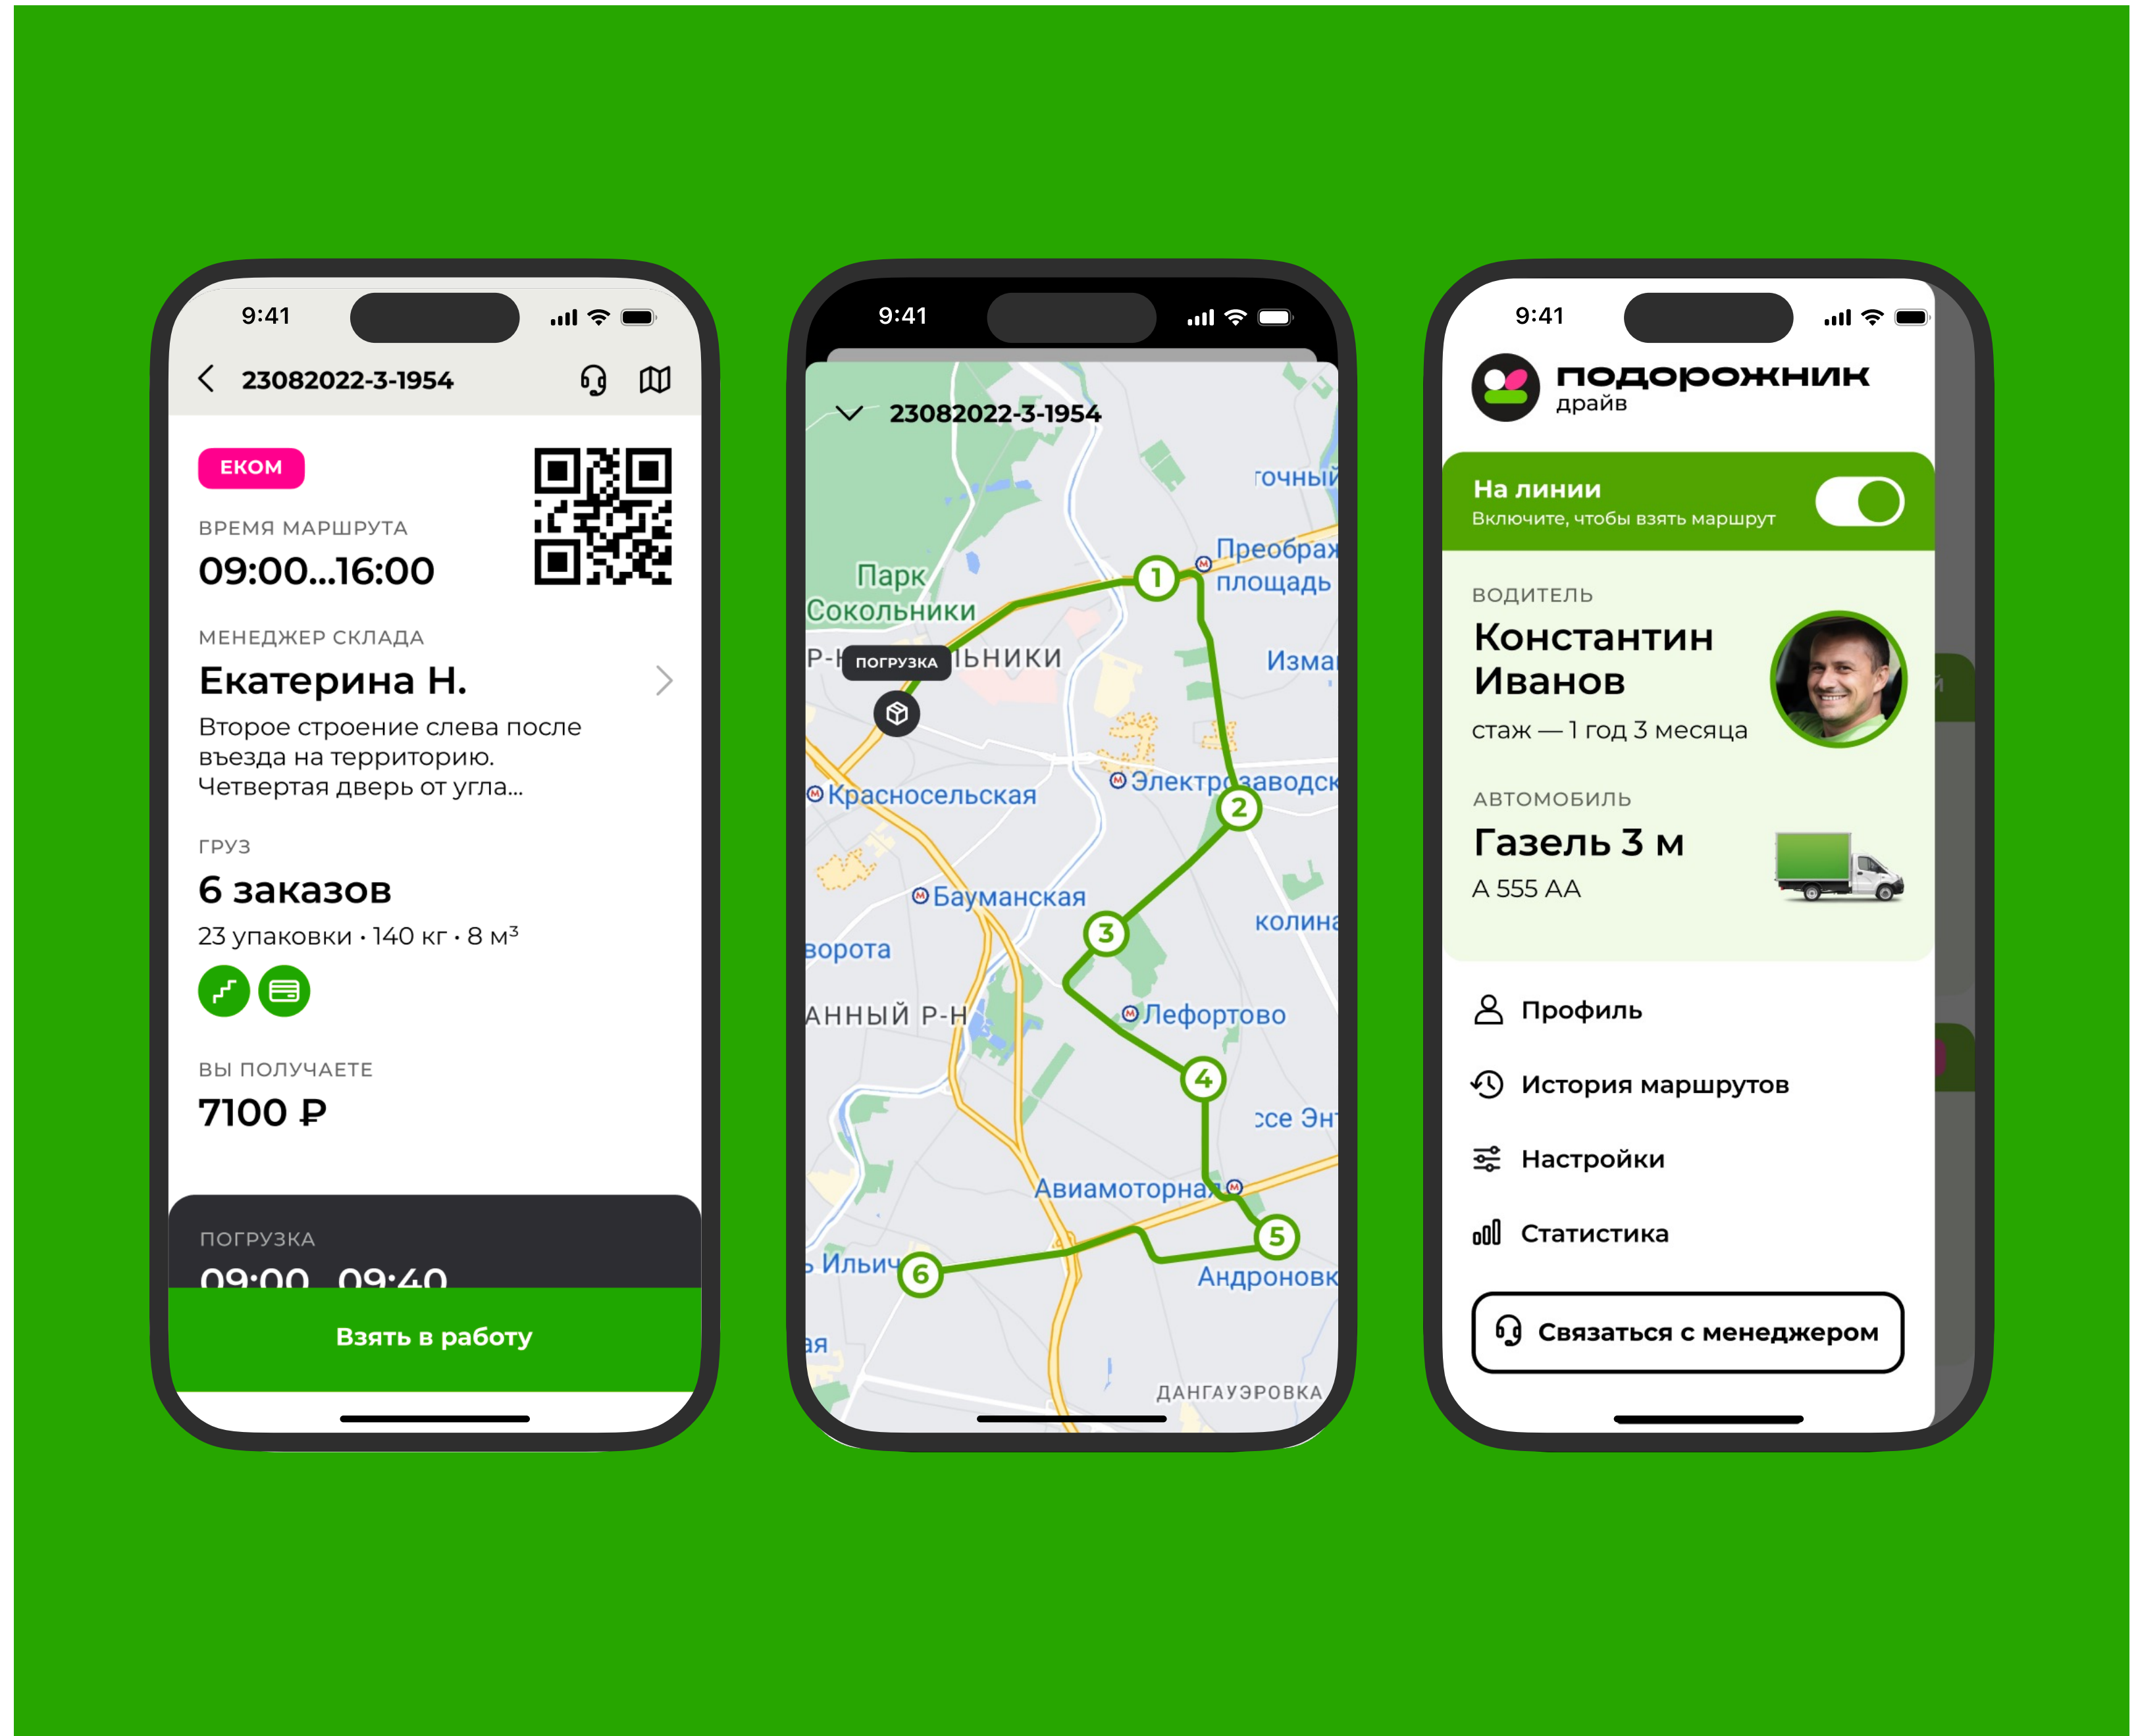

We designed an app for booking cargo taxis.

# “Podorozhnik” cargo taxi drivers app

Podorozhnik drivers face complex logistics, handling multi-segment routes and dozens of orders within limited timeframes.

We've designed an app that makes it convenient for drivers to work and earn money.

# “Podorojnik” exhibition booths

Podorozhnik delivers cargo and assists with moving. Periodically, technology exhibitions for online commerce are held in Moscow, where Podorozhnik showcases its services.

Since 2022, we have been supporting Podorozhnik with exhibition booths, consultant uniforms, merchandise, and video presentations.

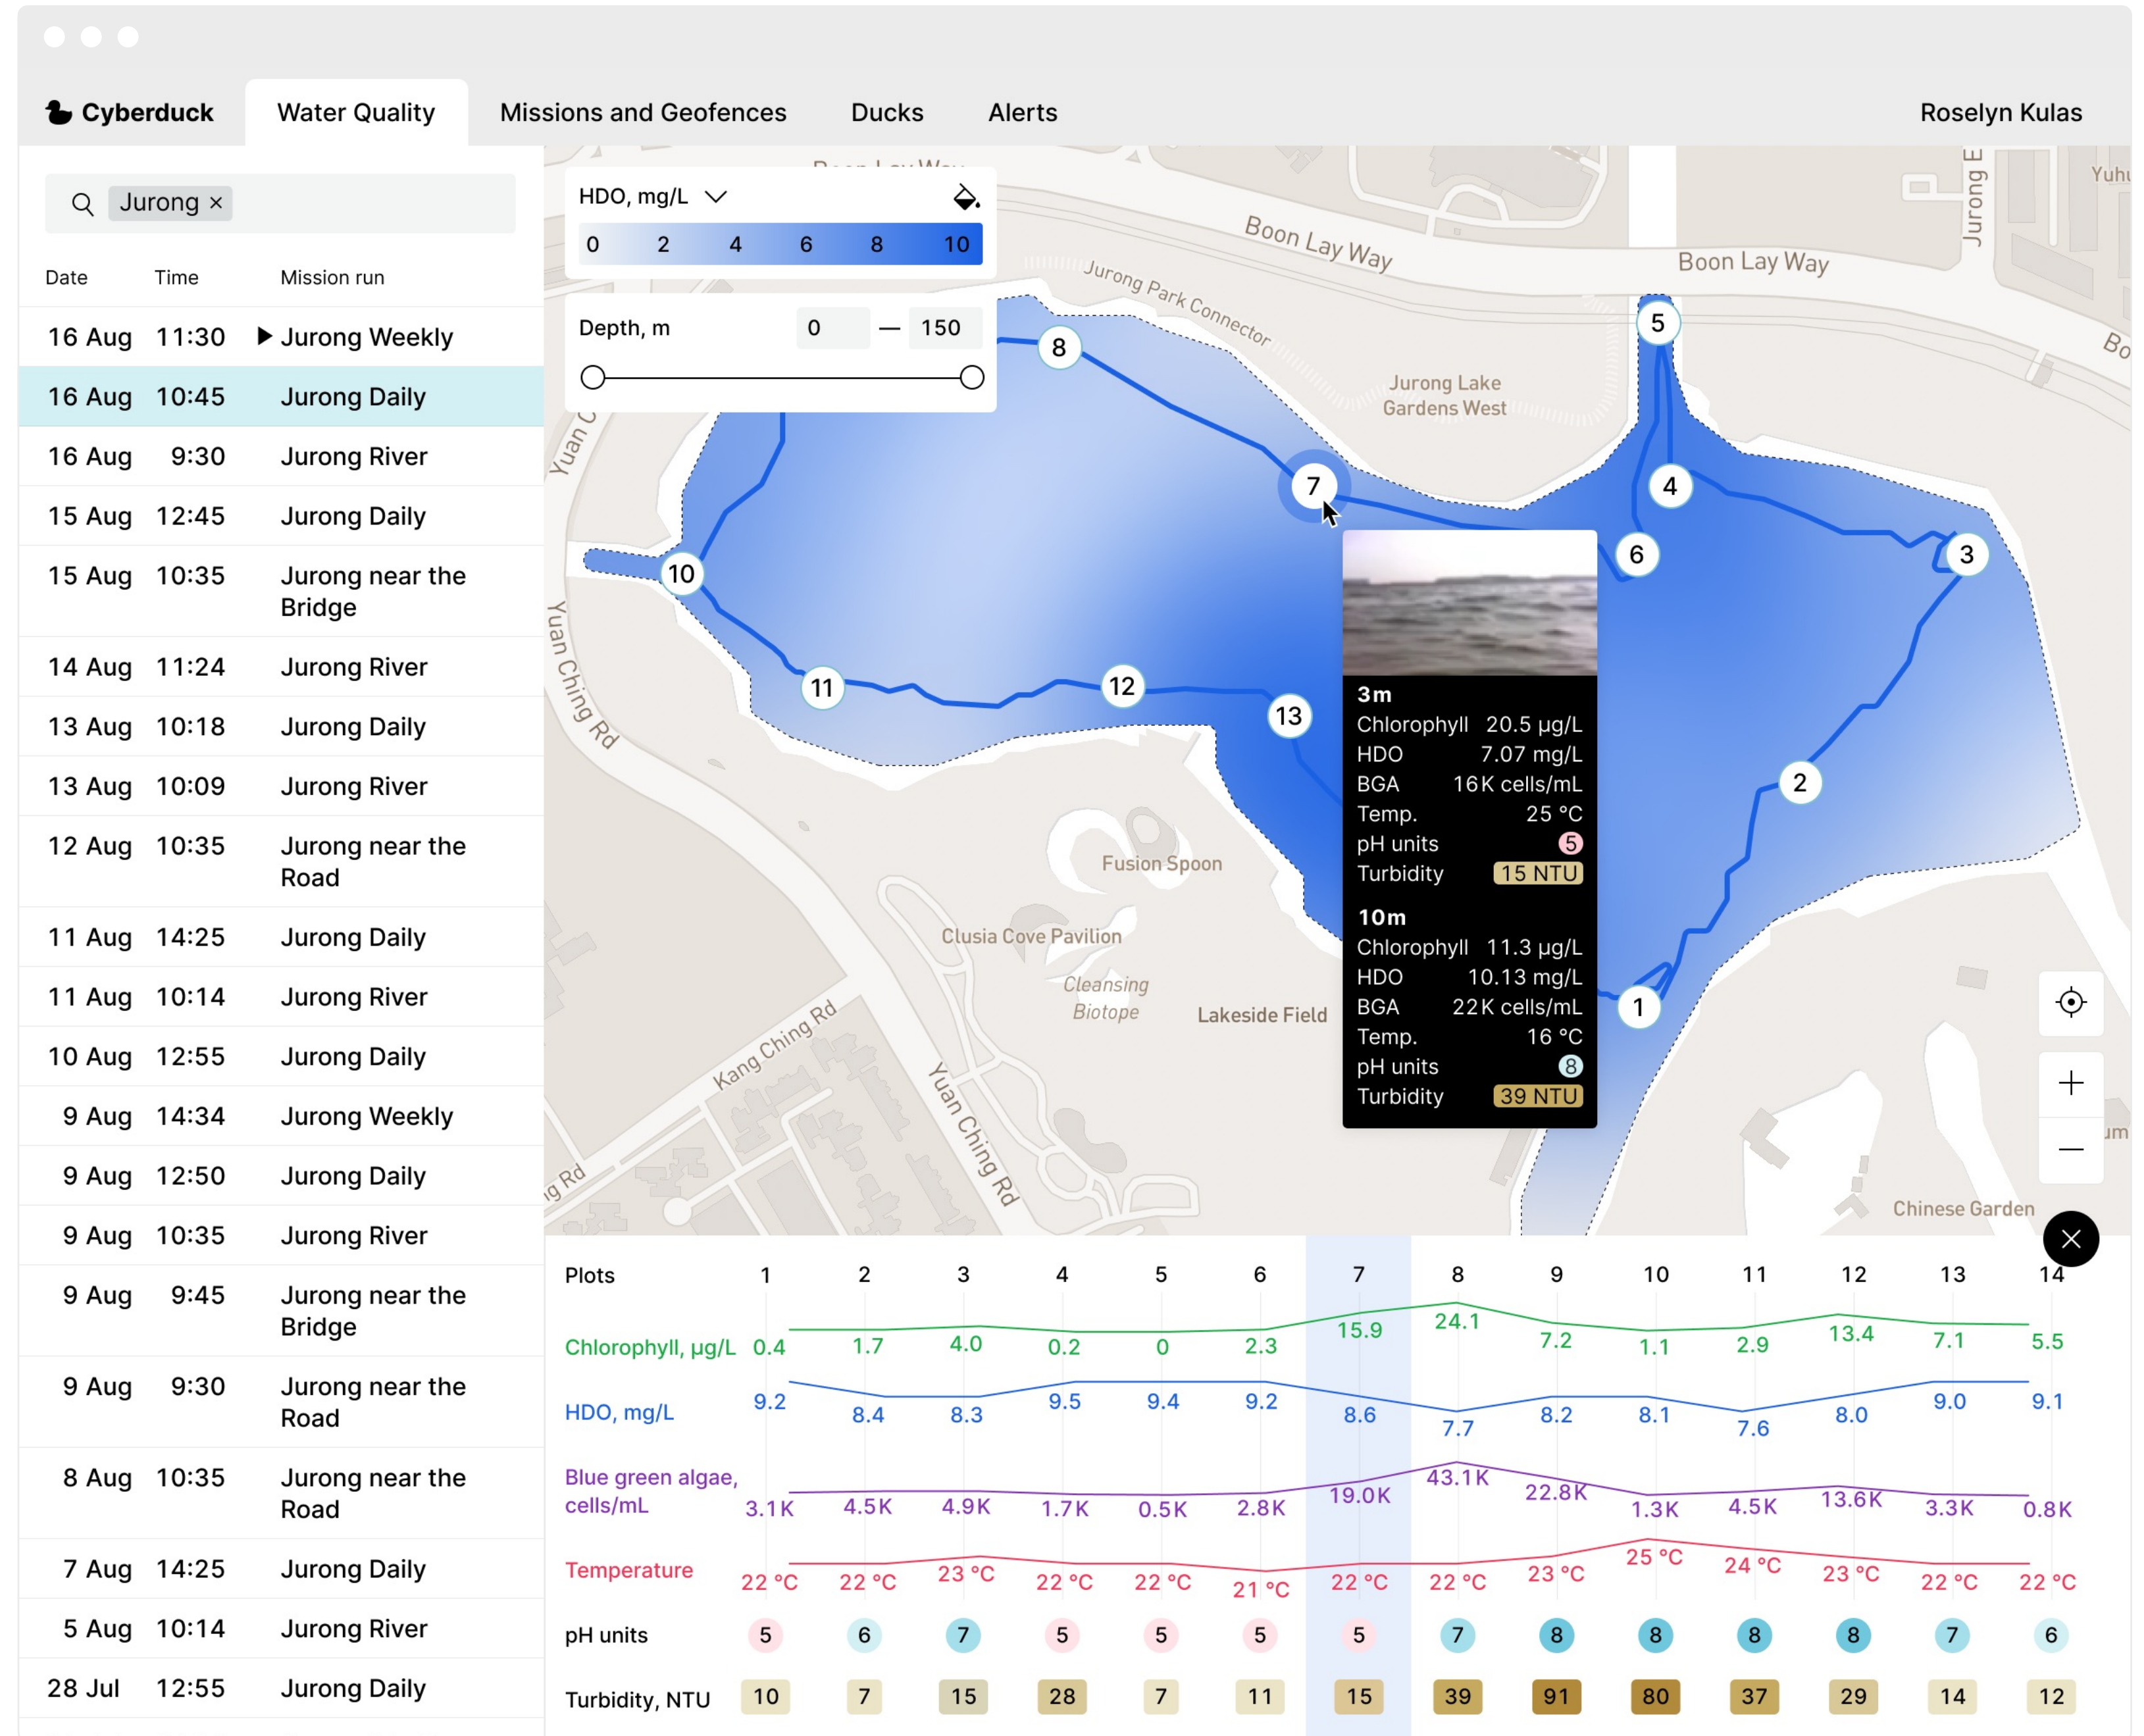

More in portfolio:  
[Booth 2022](#)  
[Booth 2023](#)

# Interface of the monitoring system in urban reservoirs

Cyberducks are the robots for taking and analyzing water samples. They are used to monitor the cleanliness of rivers and lakes in cities.

We designed the system to manage cyberducks.

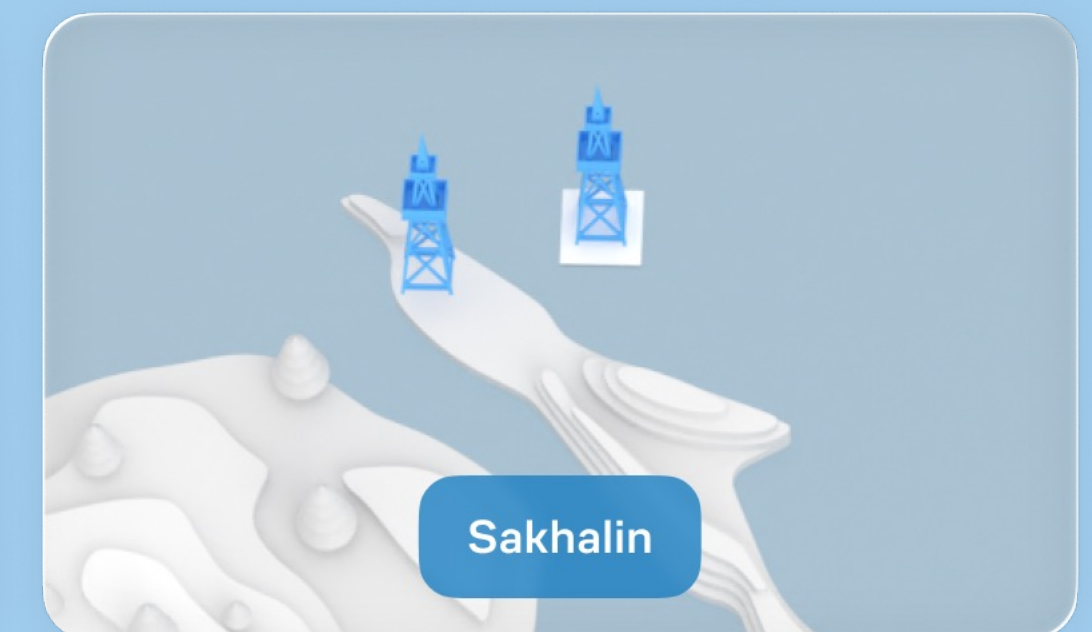

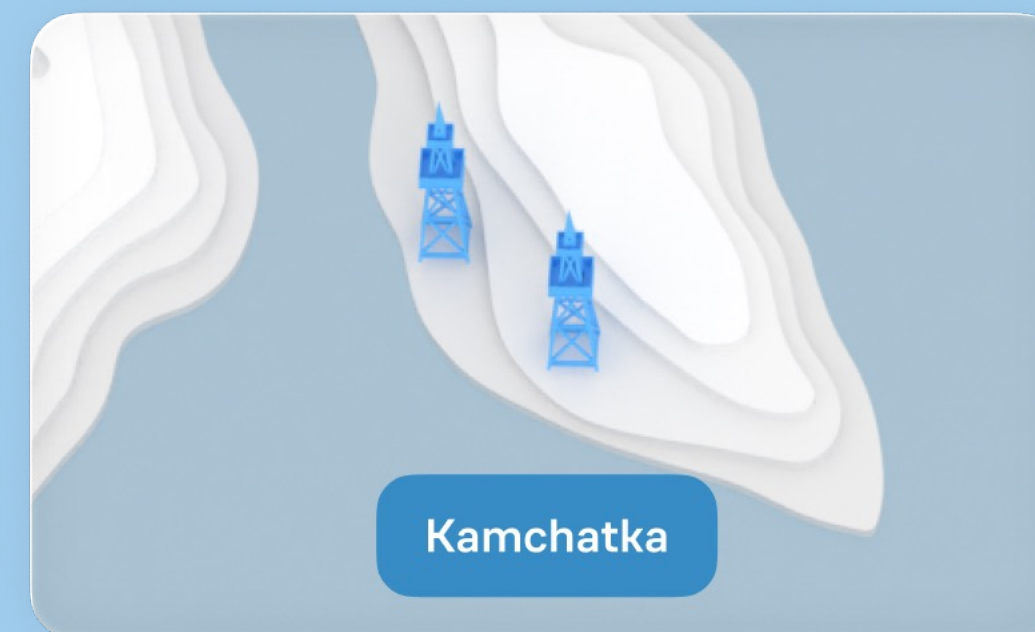

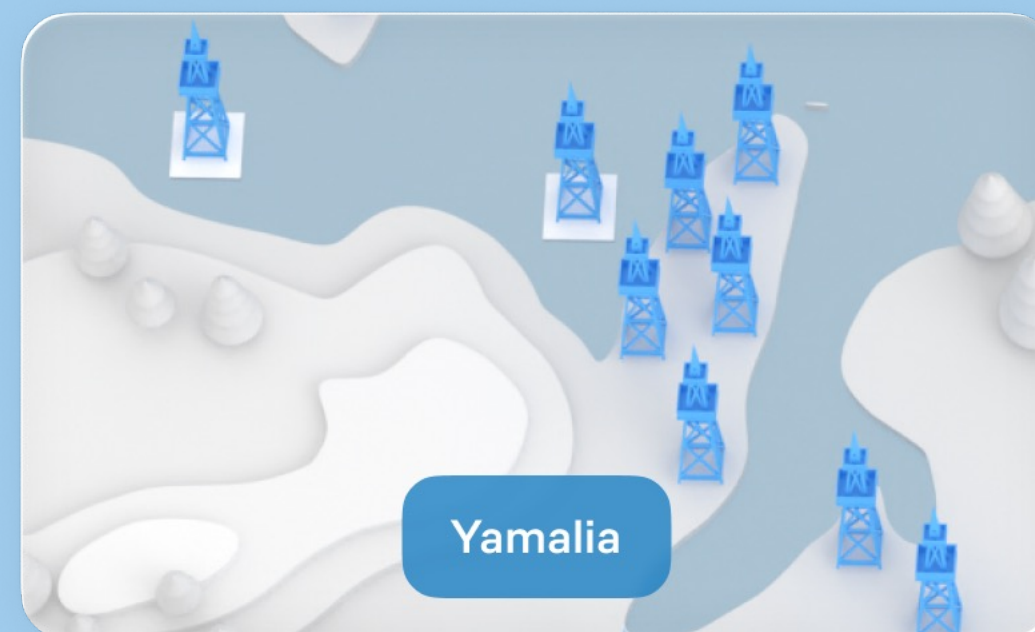

More in portfolio

# Promo interface for an oil and gas company's monitoring system

The concept showcases oil and gas fields, as well as statistics on mineral production, plan fulfillment, environmental impact, and production safety.

We imagined what such a system might look like.

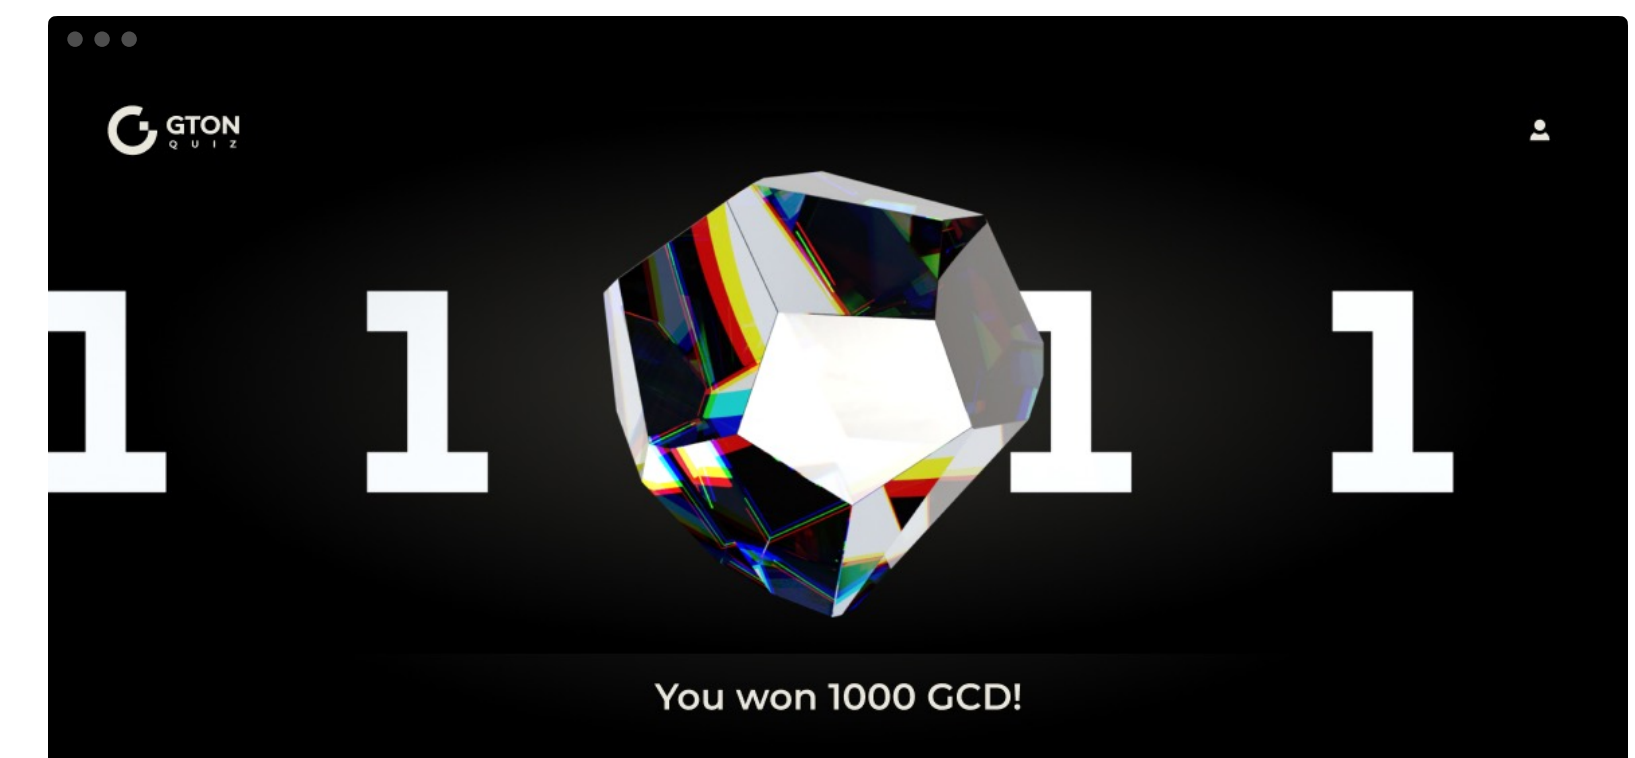

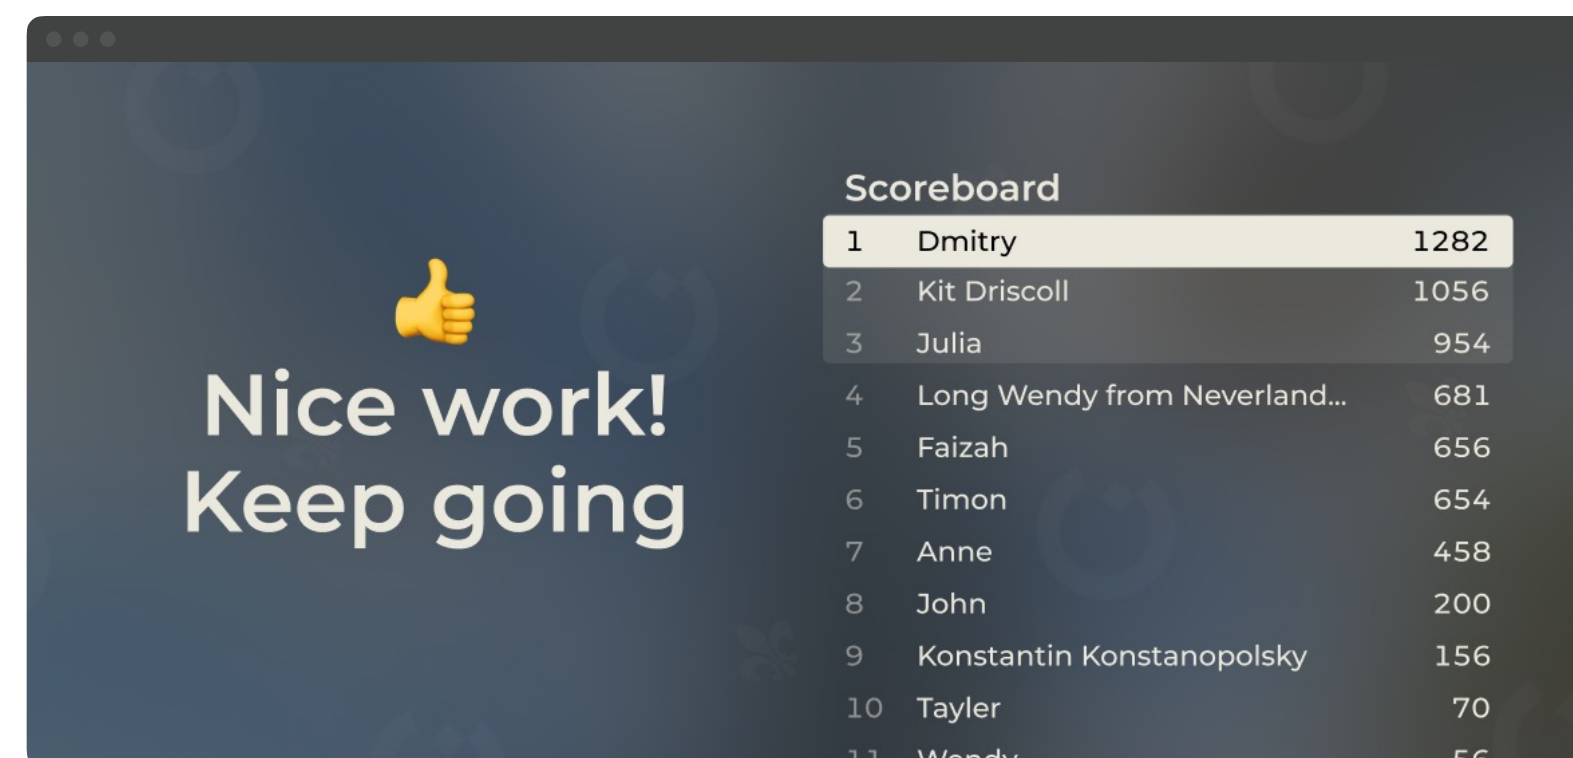

[More in portfolio](#)

# Quiz hosting platform Gton Quiz

A quiz is a game where participants answer questions and compete against each other.

Gton Quiz is a Web3 platform for creating and launching quizzes. These quizzes can be held at offline events and streamed online. Participants join the application via their crypto wallets and answer questions on their own devices. Winners receive cryptocurrency in their accounts.

We have developed an interface for creating and hosting quizzes.

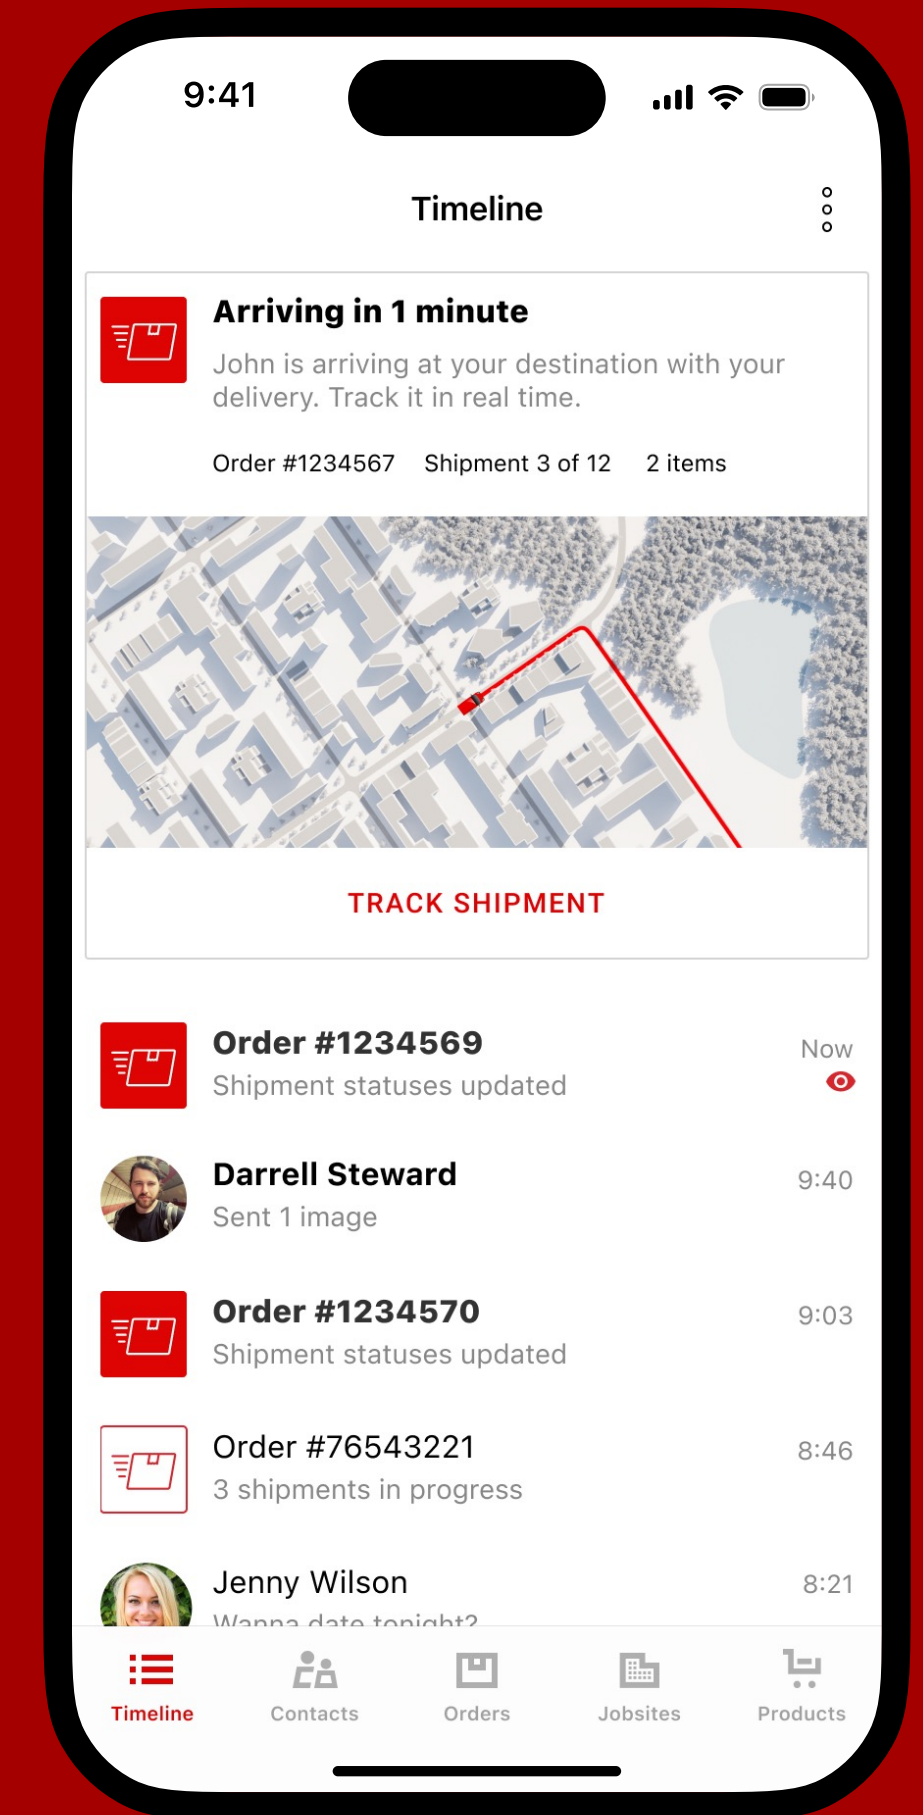

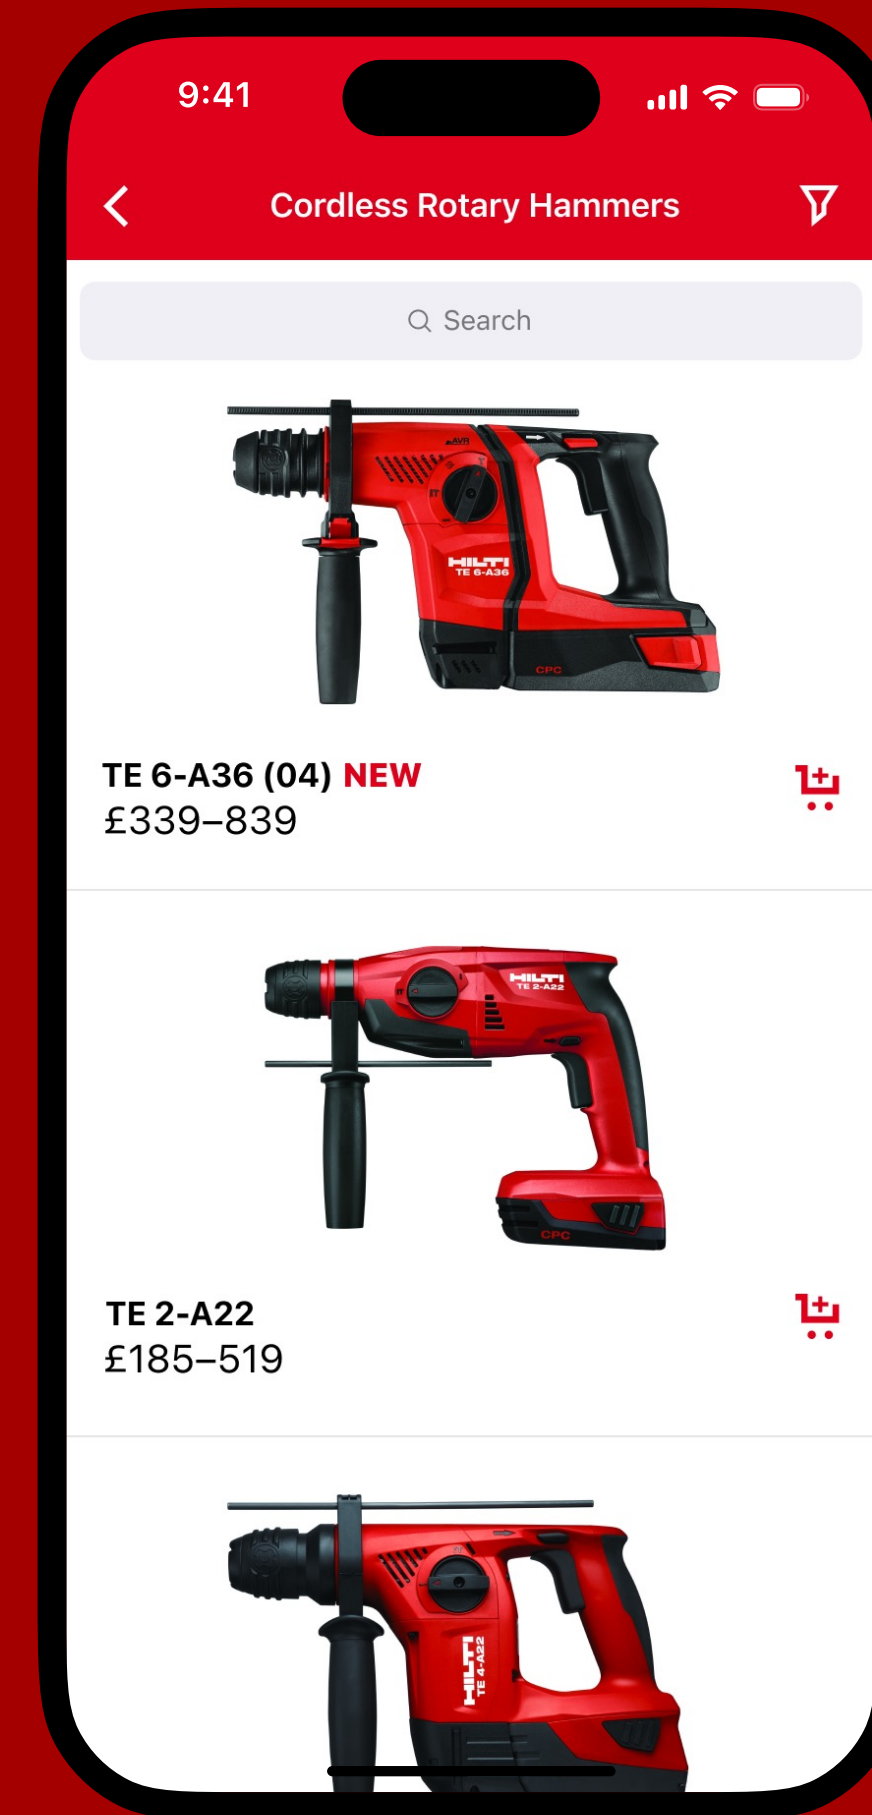

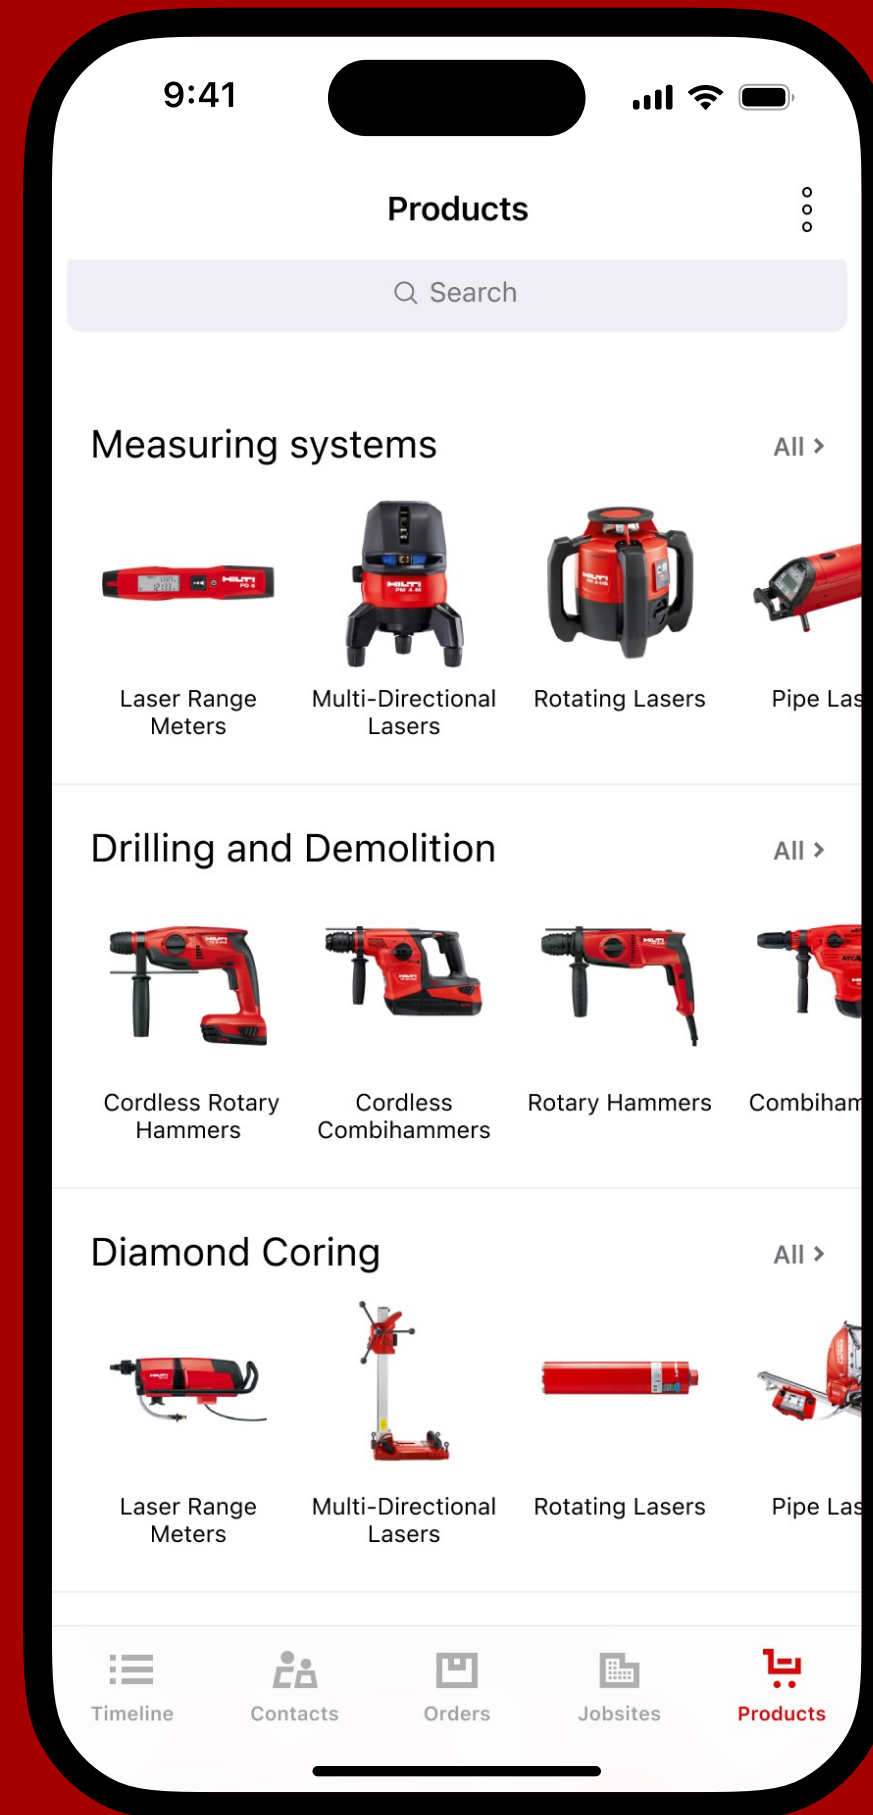

[More in portfolio](#)

# Service app for a construction equipment manufacturer

Jobsites is an app for foremen. It brings together all the construction sites a foreman is responsible for.

We designed the app for iPhone and Android.

# Modular fire cable sleeve configurator

Fire safety requires protecting cable openings in walls and floors with special sleeves. This prevents fire from spreading to neighboring rooms.

We designed a cable sleeve configurator where engineers can select the appropriate sleeves based on the required number of cables.

**CABLE SLEEVE MODULARITY CONFIGURATOR**

[More in portfolio](#)

# “Credentia” digital certificates

Credentia develops technologies for issuing and sharing digital documents. We designed both the app and the product page.

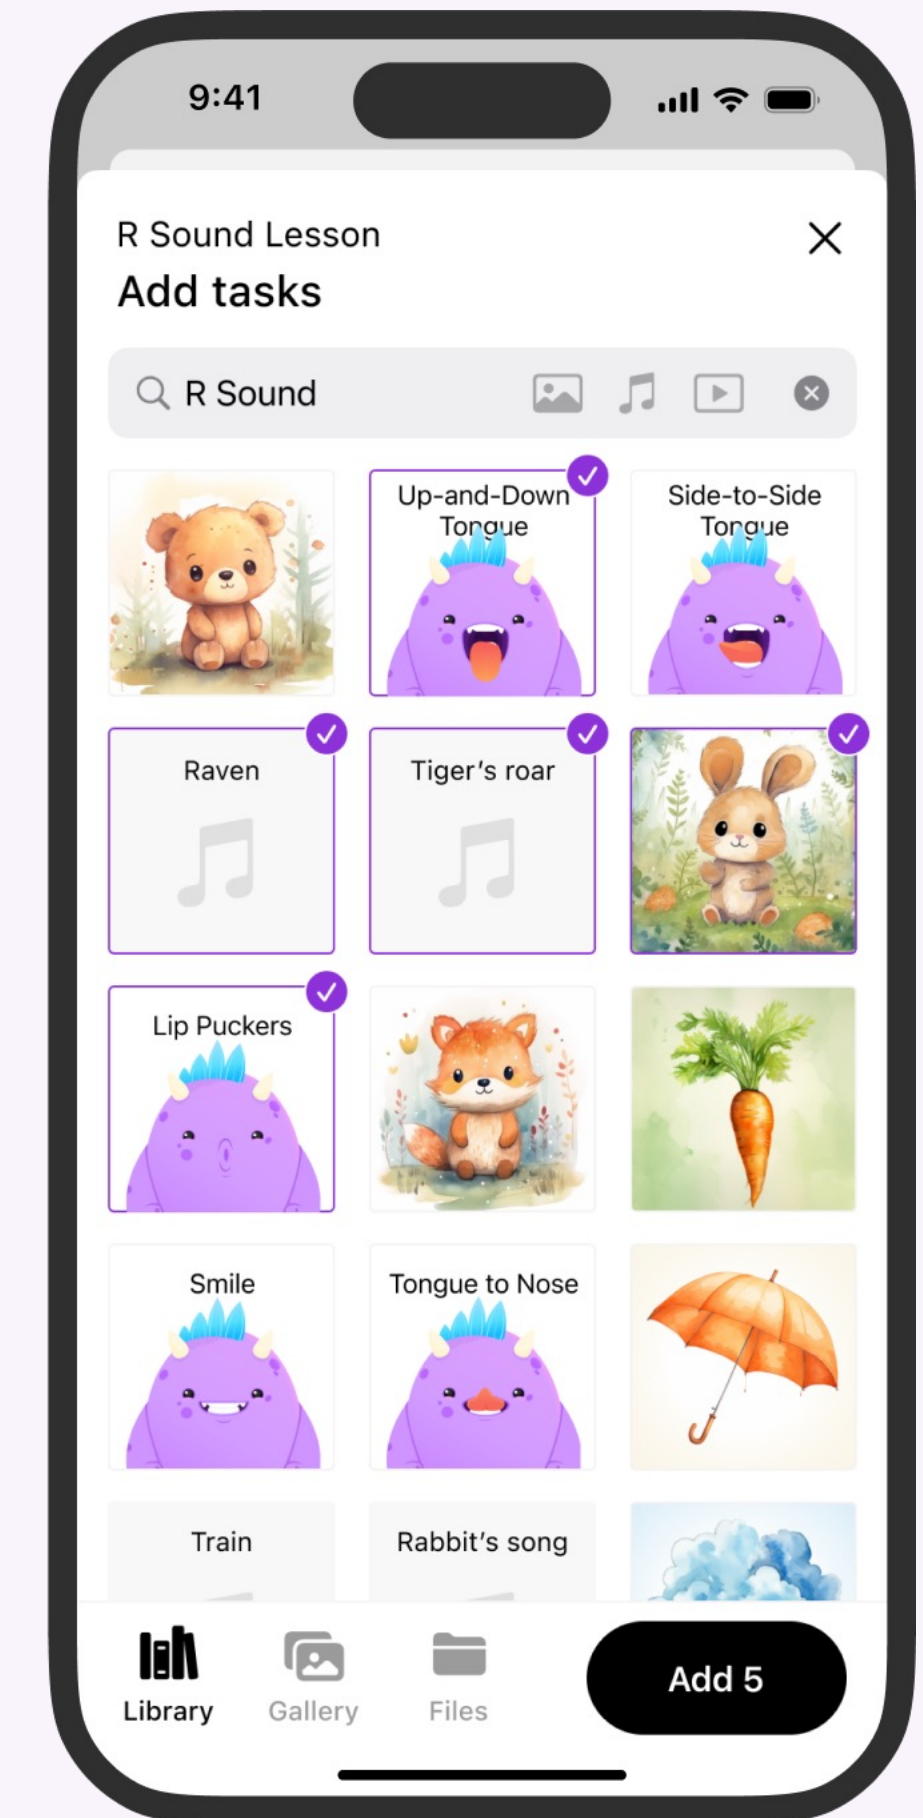

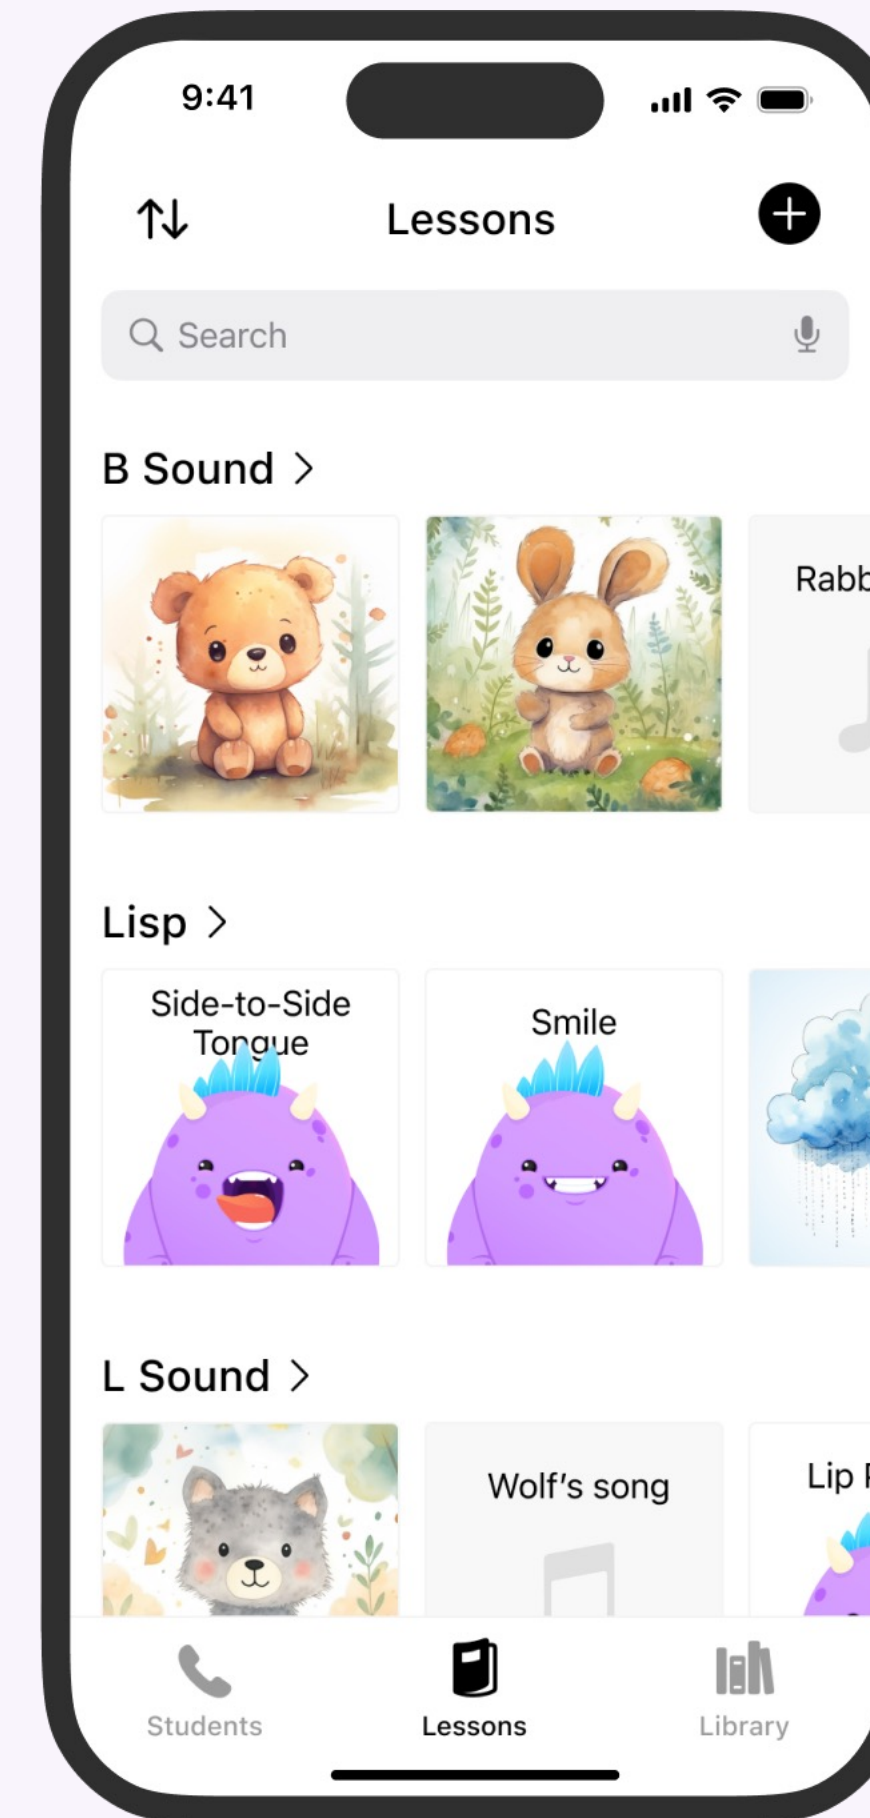

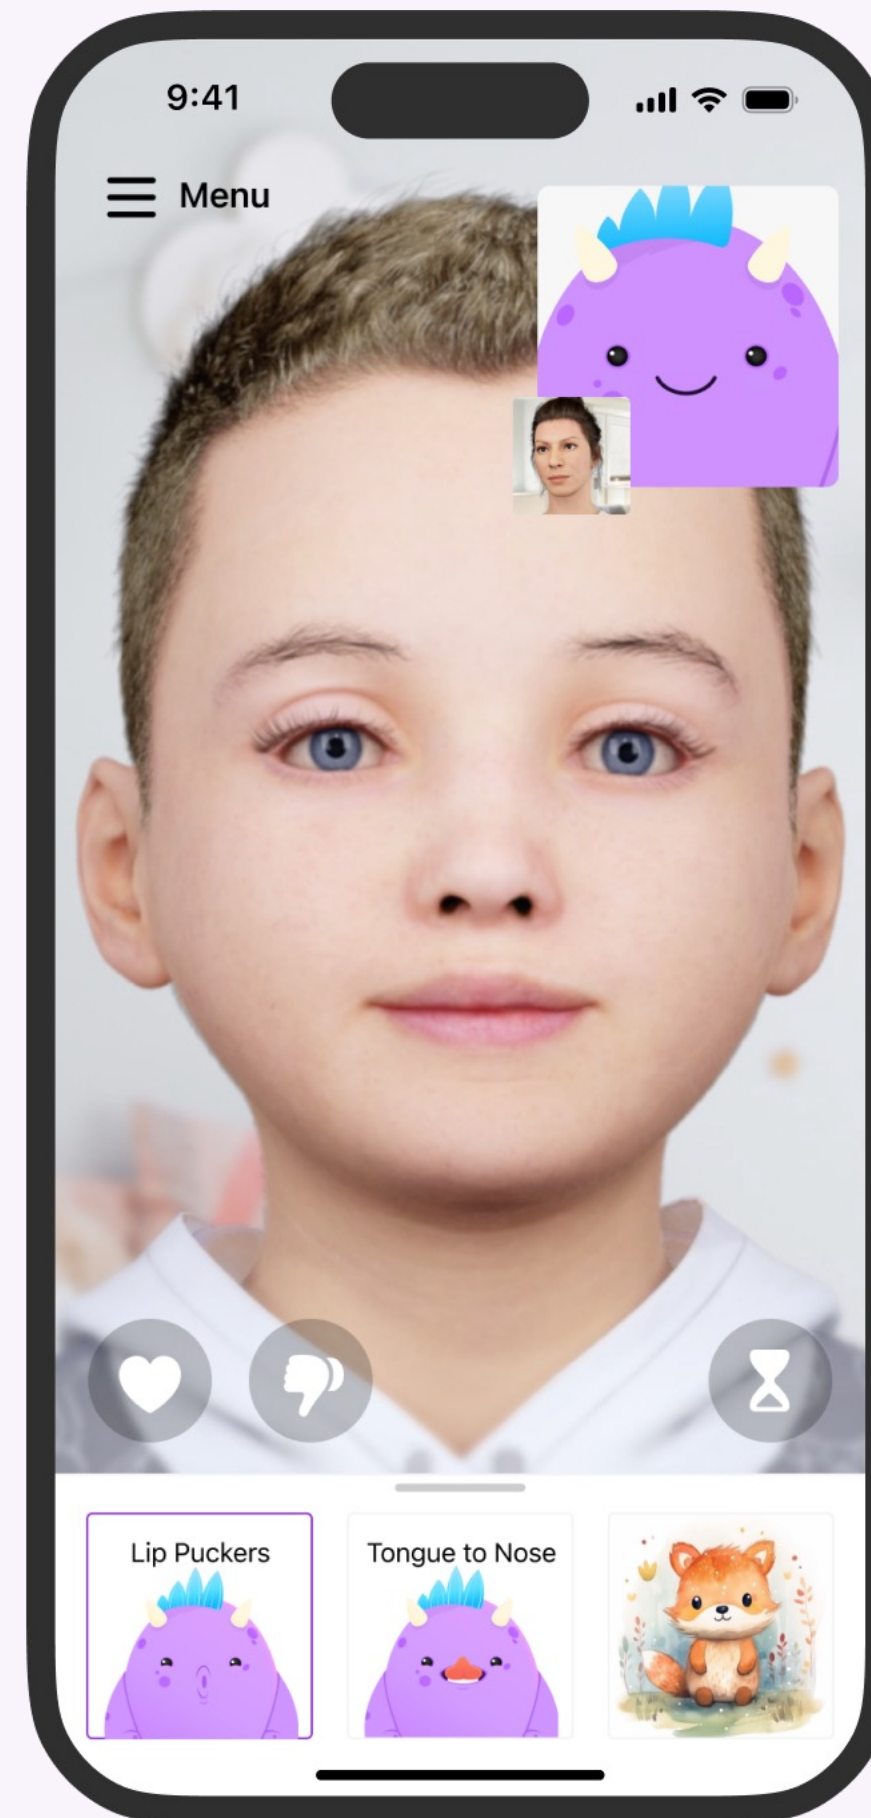

[More in portfolio](#)

# “Bubulearn” app for speech therapy sessions

Speech therapists help children start speaking and correctly articulate sounds.

In Bubulearn, they work with children remotely. We designed an app that makes it convenient for speech therapists to conduct lessons while keeping children engaged with interactive tasks.

# Character design for “Bubulearn”

In Bubulerna, speech therapists can easily assign exercises during lessons, and students find them engaging to do.

We created and animated mascots that demonstrate the exercises and keep boredom at bay.

[More in portfolio](#)

# “Petrohub” rock composition analysis platform

Petrohub is a platform that uses neural networks to analyze rock compositions.

Geologists study the mineral composition of rocks by examining thin sections—slices of rock prepared for microscopic analysis.

Using a microscope image of a thin section, the Petrohub neural network identifies mineral inclusions, outlines their boundaries, and generates a list of inclusions.

# “Oris” website localization

ORIS has been manufacturing tow bars for cars in Germany since 1955. Since 1999, the company’s largest plant in Russia has been operating in the Orenburg region.

We localized the international version of the website for the Russian market. The site was built on Bitrix to make maintenance and synchronization with the company’s catalogs convenient.

[More in portfolio](#)

# “Weso” exhaust systems landing page

WESO produces analogs of foreign exhaust systems. It is a new brand of the Russian company ACS Automotive, which has been dealing with car parts since 1999.

We designed a landing page to introduce customers to WESO.

[More in portfolio](#)

# Access control system

Business centers and offices prioritize security. That's why it's essential for them to track who is entering the building, when they come in, and for what reason.

We've created an interface for the pass system, as well as the terminal interface that welcomes visitors.

# “Sber” bank short ad

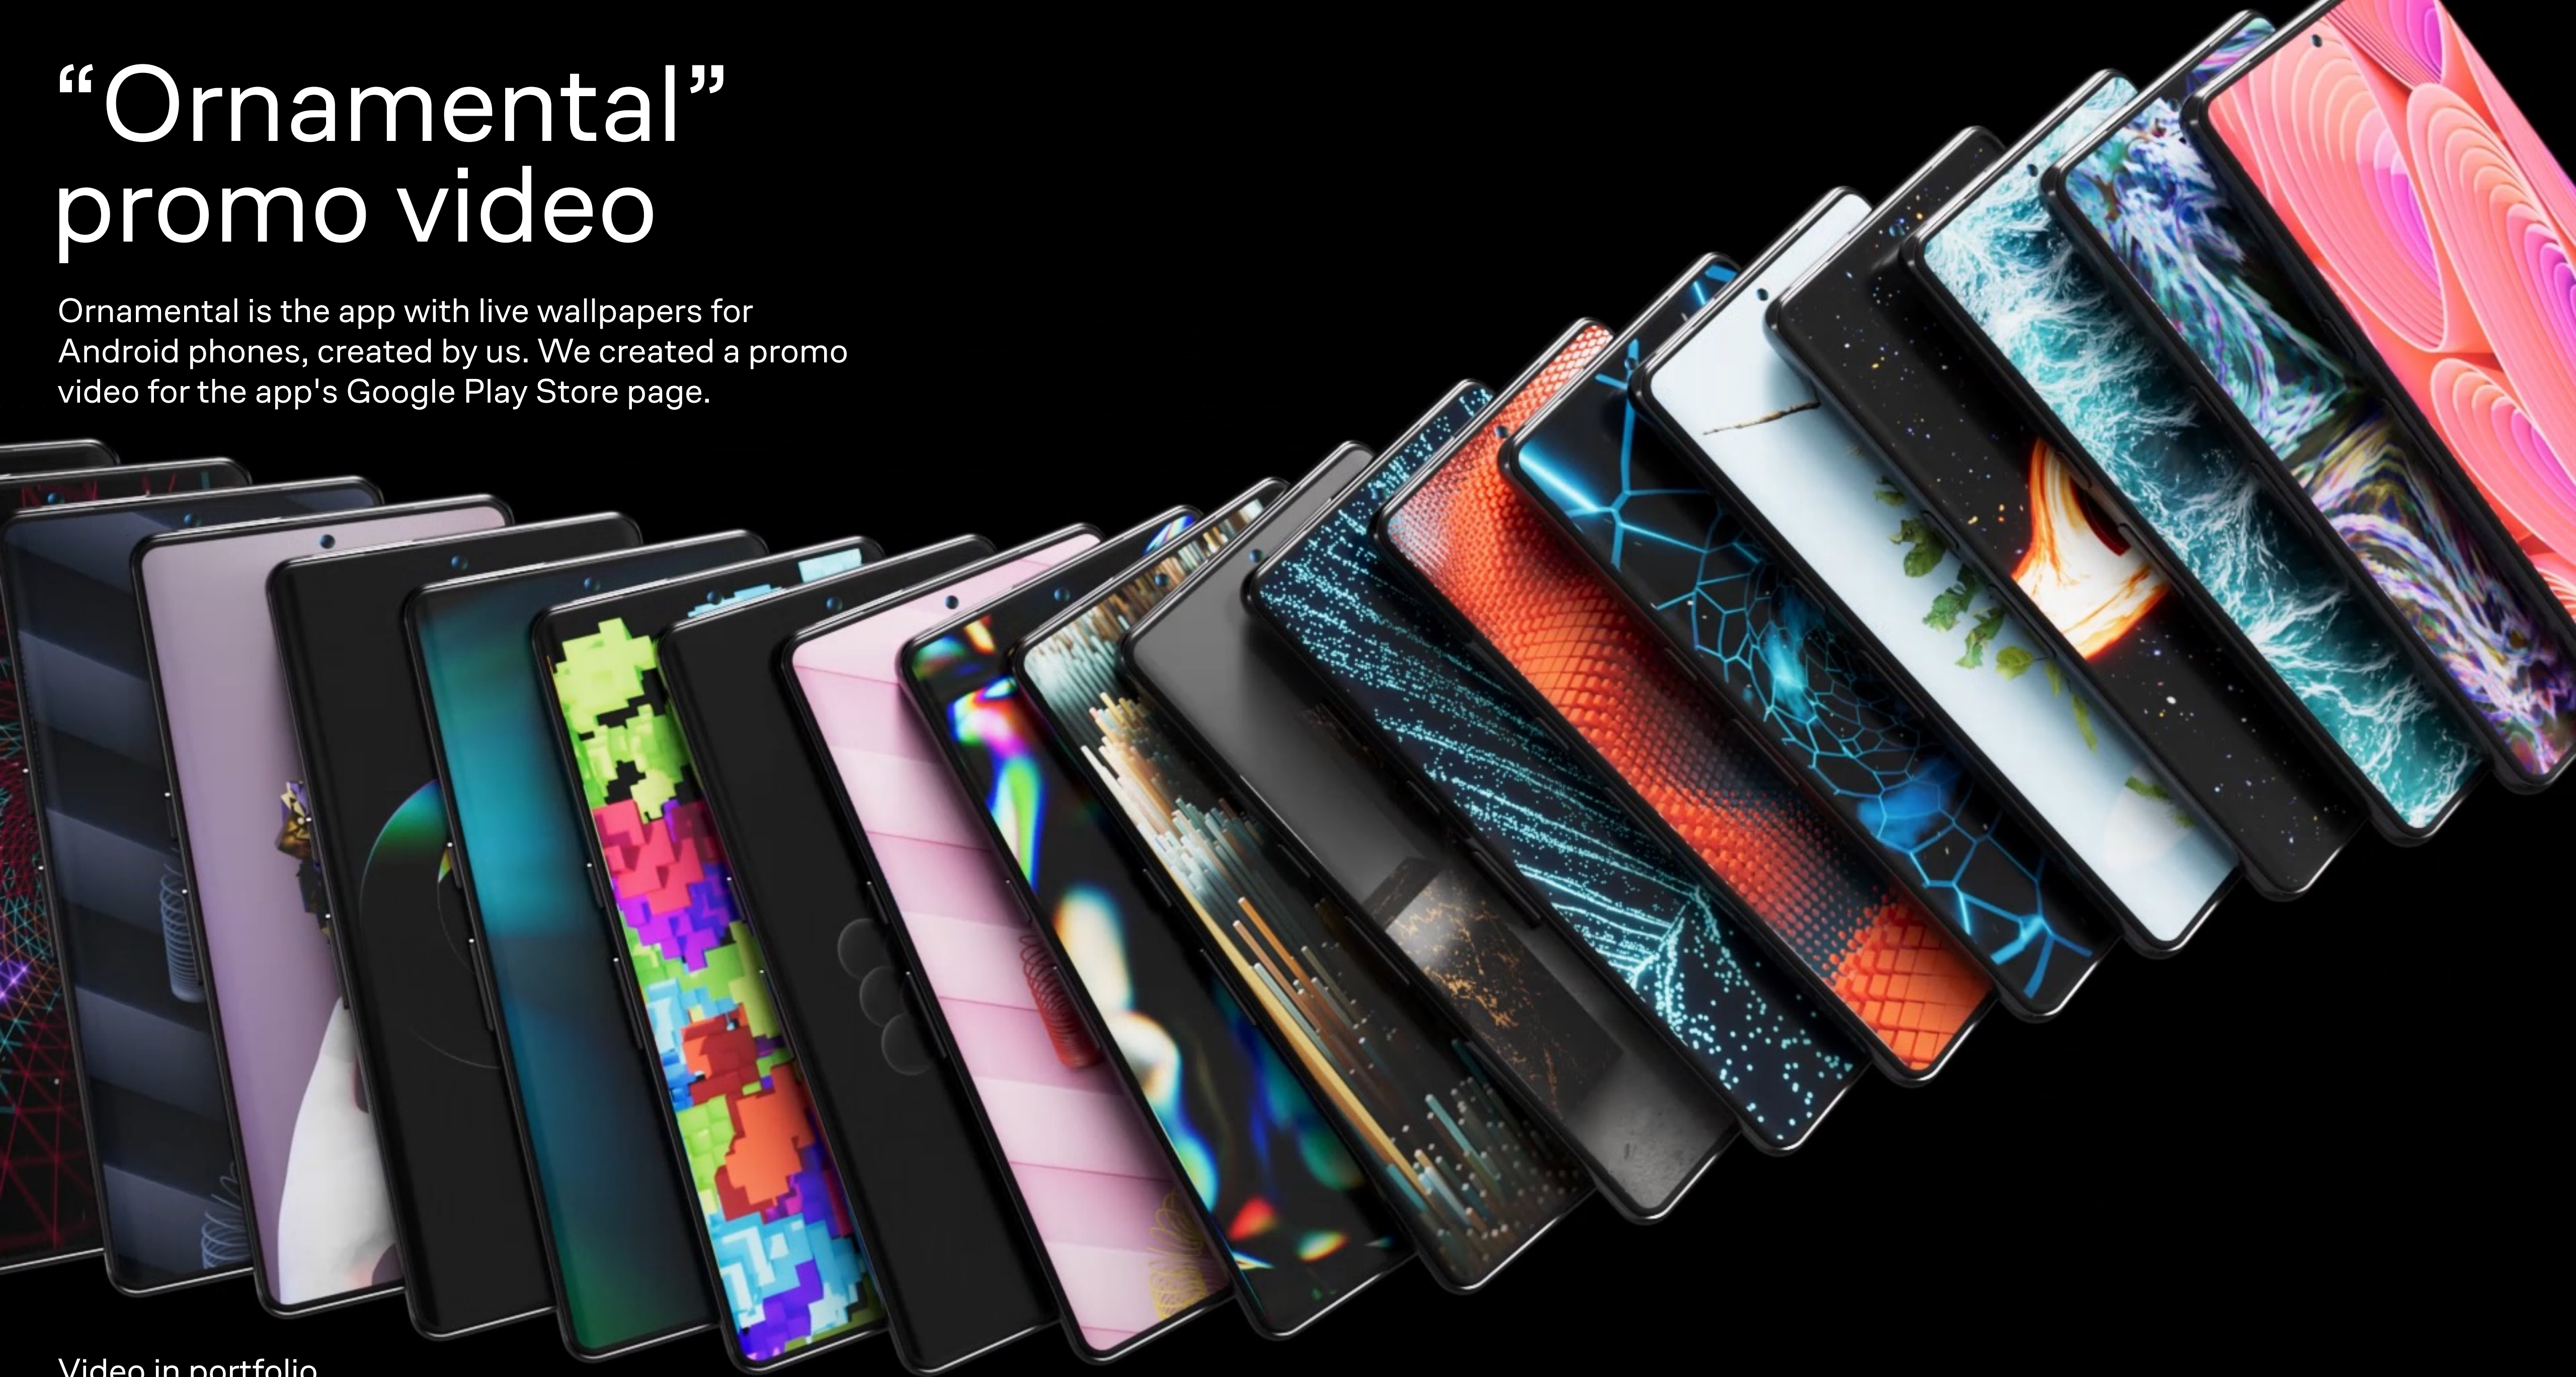

The short ad invites TV viewers of STS channel who have businesses to open account in Sber.

Тест-драйв  
за 1₽ в месяц

# “Ornamental” promo video

Ornamental is the app with live wallpapers for Android phones, created by us. We created a promo video for the app's Google Play Store page.

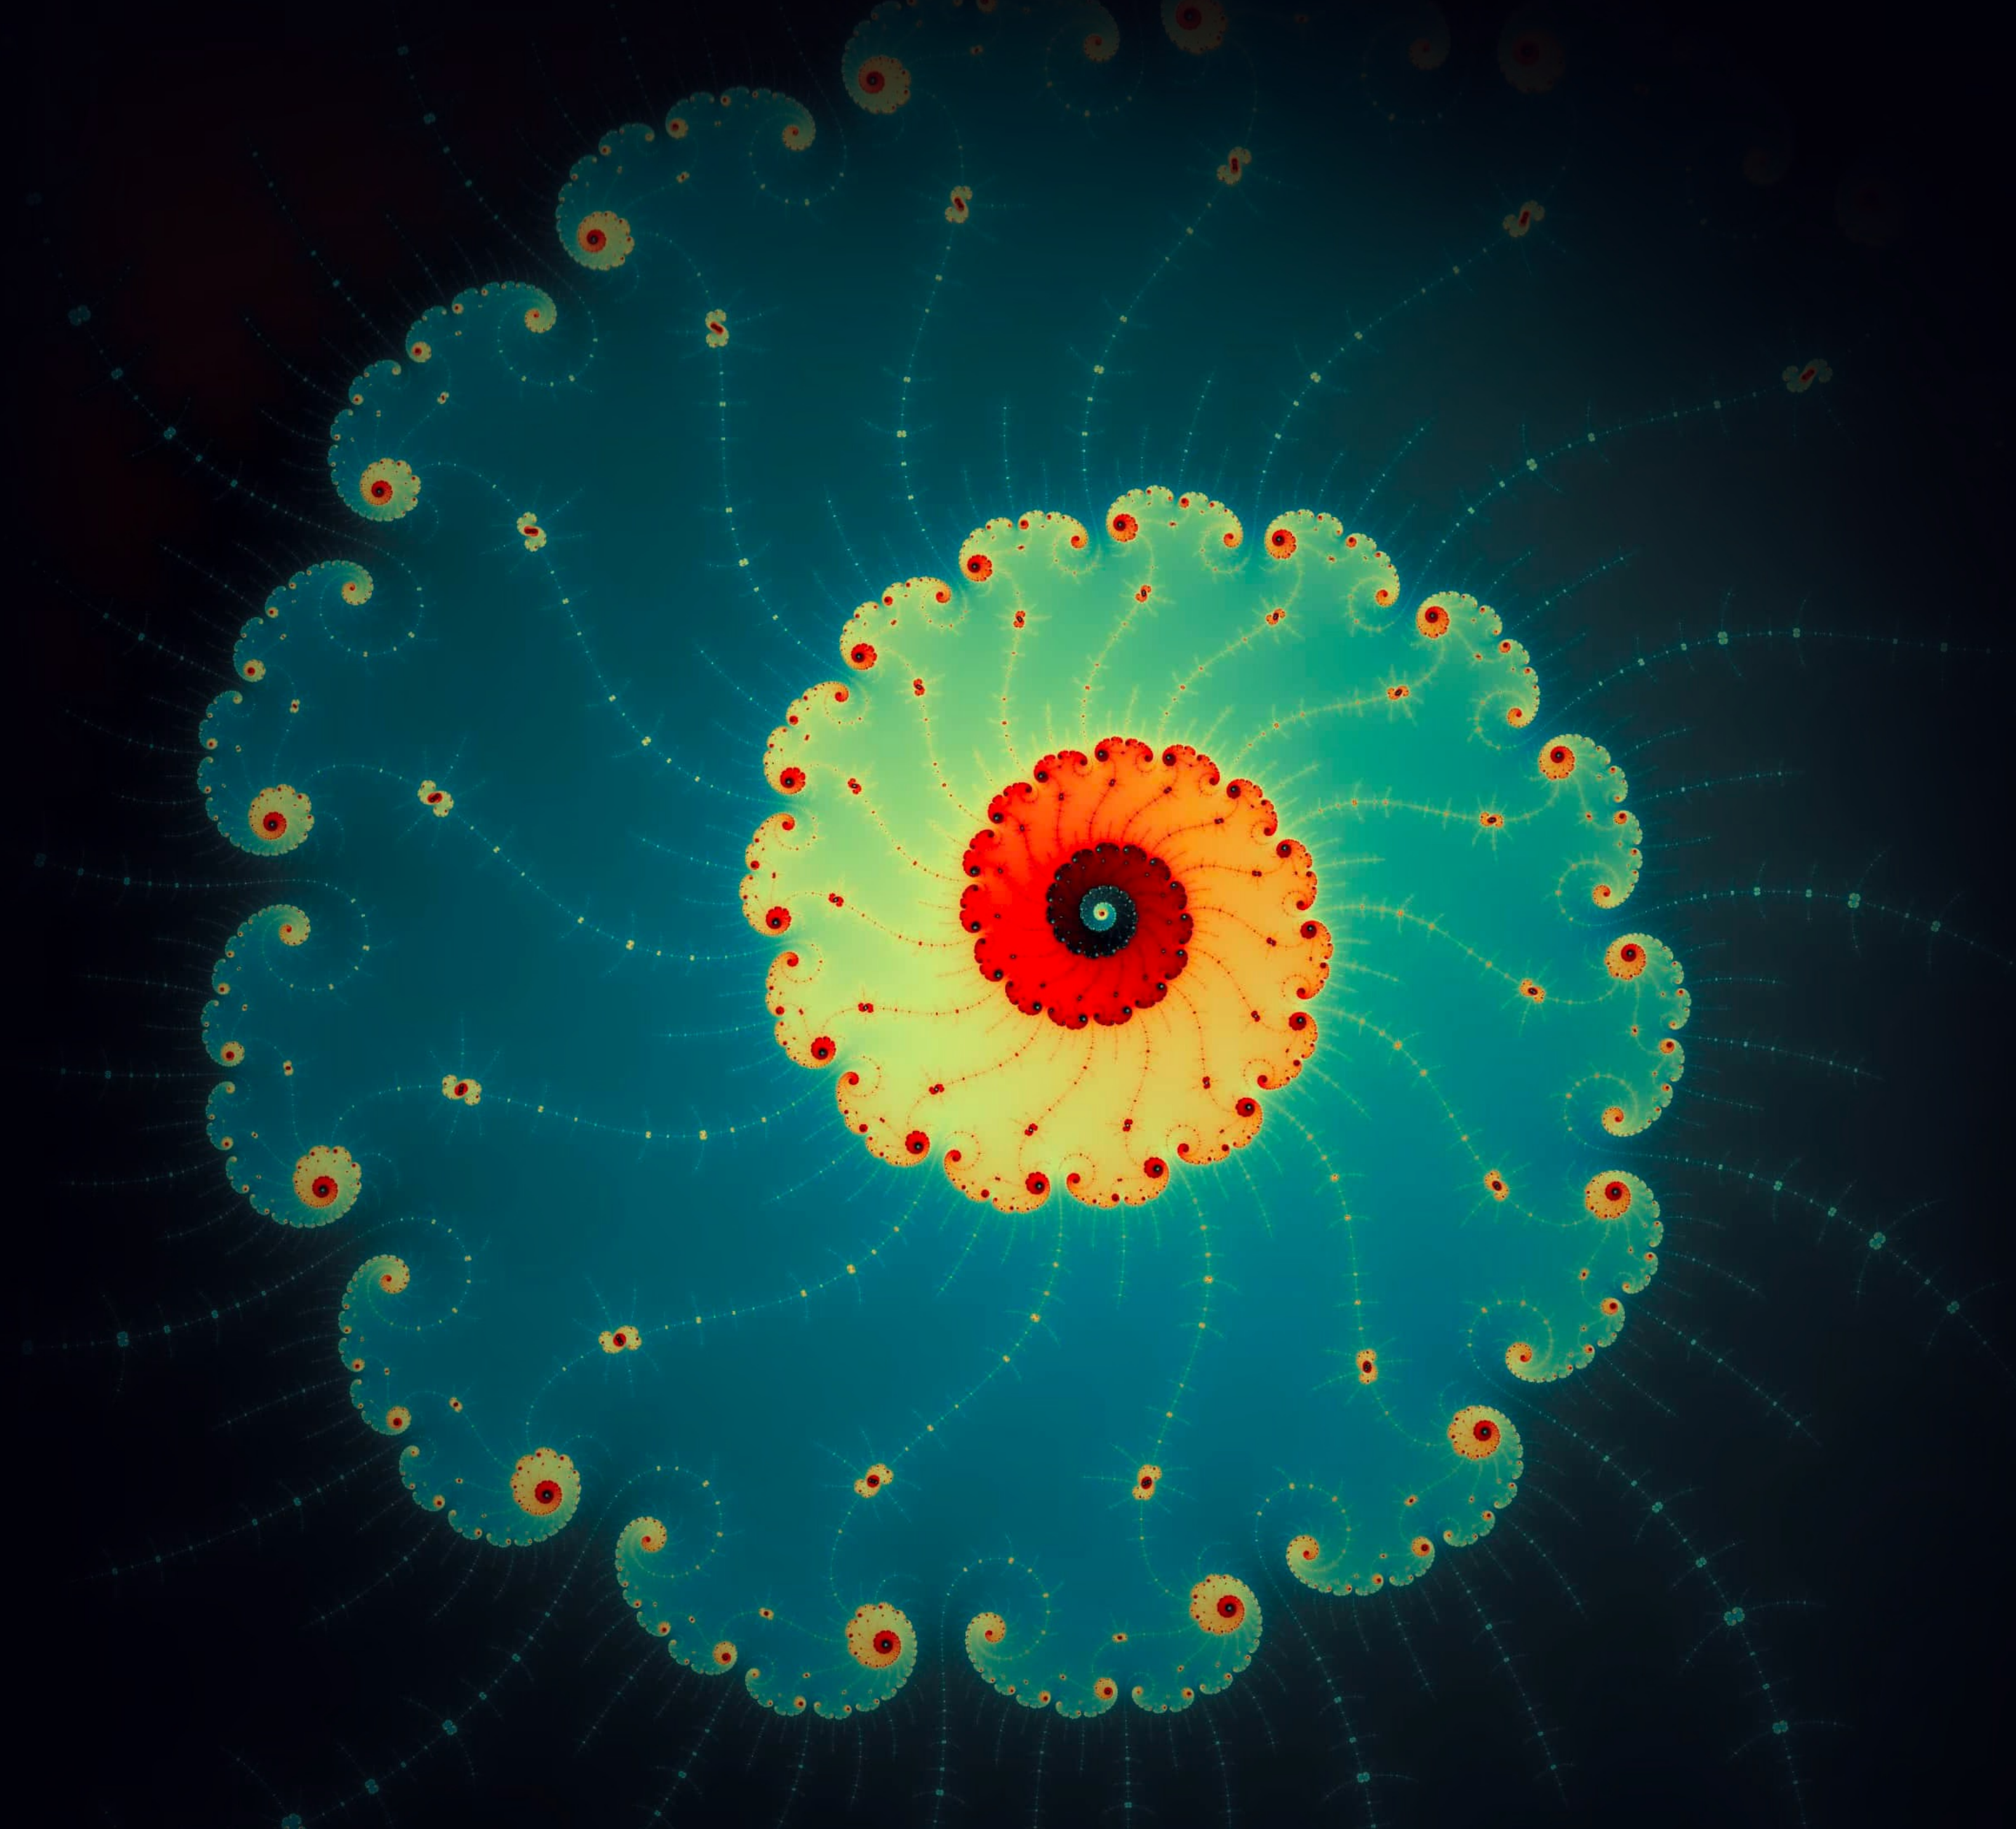

[Video in portfolio](#)

# “Smartz” blockchain marketplace identity

Smartz is a smart-contract marketplace on the blockchain. We wanted to make the project stand out among the many neon-styled crypto startups. We found the solution in fractals, symbolizing the blockchain’s infinite depth.

For the logo, we chose to use the second iteration of the Sierpiński carpet fractal, and the Menger sponge for the 3D version. The logo resembles a catalog with contract icons.

[More in portfolio](#)

# Tickets and ranger app for “Pribaikalsky” National Park

Pribaikalsky National Park is a protected area near Lake Baikal in Irkutsk Oblast. To enter, visitors must first obtain a permit.

We designed the entire journey—from getting a permit to exploring the park.

[More in portfolio](#)

The screenshot shows a web interface for the Pribaikalsky National Park. At the top, there is a navigation bar with the park's logo and links for 'Направления', 'Карта', 'Активности', 'Магазин', 'Новости', and 'Контакты'. Below the navigation bar, the main heading is 'Разрешение на посещение'. Underneath, there is a section titled '1. Территория' which contains two icons: 'Прибайкальский национальный парк' and 'Байкало-Ленский заповедник'. Below this is a table of routes. The table has columns for 'Маршрут', 'Что интересного', 'Тип', and 'Расстояние'. The first route is 'О. п. Темная Падь — Старая Ангасолка' with a distance of 3 km. The second is 'О. п. Переезд — река Большая Крутая Губа' with a distance of 13 km. The third is 'Олхинские скальники — гора Камни Потайные' with a distance of 12 km. The fourth is 'Посёлок Листвянка — падь Крестовая — перевал Черный — падь Черная' with a distance of 23 km and is checked. The fifth is 'Посёлок Листвянка — посёлок Большие Коты — посёлок Большое Голоустное' with a distance of 50 km. At the bottom, there is a progress bar with three steps: 'Территория и время', 'Посетители', and 'Проверка и оплата'. The first step is active. To the right of the progress bar, there is a summary box showing 'Транспорт 1500 ₺' and 'Итого 1500 ₺'.

Маршрут	Что интересного	Тип	Расстояние
<input type="checkbox"/> О. п. Темная Падь — Старая Ангасолка	Короткий маршрут от действующего Транссиба до КБЖД. Популярный поход выходного дня к озеру Байкал, доступный даже неопытным туристам.		3 км
<input type="checkbox"/> О. п. Переезд — река Большая Крутая Губа	Живописный спуск к Байкалу по ущелью речки Большая Крутая Губа. Зимой здесь проложена лыжная трасса, требующая местами внимательного техничного прохождения.		13 км
<input type="checkbox"/> Олхинские скальники — гора Камни Потайные	Поход по горам и рекам от знаменитых Олхинских скальников к скальнику «Камни Потайные». С вершины скальника туристы любуются панорамами речных долин и гор Хамар-Дабана.		12 км
<input checked="" type="checkbox"/> Посёлок Листвянка — падь Крестовая — перевал Черный — падь Черная	Поход по смешанному лесу из Листвянки в падь Черную. Безопасный маршрут до Черной пади с ноября по январь, когда маршрут по обрывистому берегу рискованный из-за снега и наледей.		23 км
<input type="checkbox"/> Посёлок Листвянка — посёлок Большие Коты — посёлок Большое Голоустное	Здесь грандиозные скалистые утесы, леса, степи и много достопримечательностей. Летний маршрут, один из первых байкальских маршрутов, популярный и зрелищный.		50 км

# “Kenozero” National Park Website

Kenozero is a national park in Arkhangelsk Oblast, Russia. People come here to relax, go on boat trips, send their children to camp, sleep under the stars in tents, and hike with guides.

The park has preserved the centuries-old history, culture, and traditions of the Russian North. We created its website.

[More in portfolio](#)

# “Curation network” interfaces

A curated network is a platform for creating product ratings using blockchain technology, without a single owner or censorship. Such a rating is honest and incorruptible.

We designed the platform interface in viewing and voting modes.

[More in portfolio](#)

The screenshot displays the Curation Network interface. On the left is a sidebar with navigation options: Curation network, All projects, Dapps (selected), Apps, Blockchains, Constructors, Media, Tokens, Blog, and Wiki. A 'Submit a project' button is at the bottom of the sidebar. The main content area features a search bar with the text 'Find projects, Dapps, contracts, wallets or addresses' and a 'Find' button. Below the search bar, there's a suggestion 'For example Coinbase Wallet'. A large heading reads 'Blockchain wallets\*, exchanges\* & games\* with DAU from 1k to 100k\*'. A filter section includes 'Platform', 'Type', 'Category', 'Rank', and 'Blockchain'. The main section is titled '48 Dapps found' and contains a table of project listings. The table has columns for Rank, Name, Blockchains, Platforms, and What's inside. The first eight rows are visible, listing projects like Decentralized News Network, IDEX, ForkDelta, Etheremon, OmiseGO, CryptoKitties, Fomo3D, and Bancor. On the right side of the interface, there's a user profile for 'Konstantin Konstantinopolsky' with a 'Curation is OFF' toggle and a notification bell. Below this is a promotional banner for becoming a curator and earning money, with a 'Learn more' button. At the bottom right, there are two sections: 'Market statistics' showing 21,000 users and 29 billion ETH volume, and 'Curation network statistics' showing 42,091 projects and 729 active users. An 'Activity' section lists recent updates. A 'Get started guide for newbies' button is at the very bottom right.
